Head of Important Body to Return As Chief of International Harvester

WASHINGTON, March 6.—(UP)—Resignation of Alexander Legge as chairman of the federal farm board was announced this afternoon by the White House.

Vice Chairman James E. Stone of Louisville, Ky., tobacco member of the board, is to be elevated to the chairmanship, according to authoritative information.

Samuel R. McKelvie, wheat member, and C. C. Teague, fruit and nut member, are expected to follow Legge into retirement about June 1. McKelvie's term will have expired then, while Teague is anxious to get back to the California Walnut Growers Exchange and California Fruit Growers Association of both of which he is president.

Appointed in 1929

Legge has served as chairman of the farm board since the board's creation July 1, 1929. He was persuaded by President Hoover to relinquish the presidency of the International Harvester company to take the post.

L. A. VOTERS PASS \$5,000,000 ISSUE

LOS ANGELES, March 6.—(UP)—A \$5,000,000 bond issue, to be expended in improvements as a means of relief for the city's unemployed, passed by a small margin yesterday on the basis of unofficial returns from the city's precincts.

The vote: Yes, 82,331; no, 36,093. Of the amount voted, \$3,000,000 was for street improvement, and \$1,000,000 each for park and playground improvements.

At the same time it was announced that voters would pass on two school bond issues totaling \$12,720,000 on March 27, to afford additional employment in the building trades.

Liners Rush to Aid of Steamer

TRURO, N.H., March 6.—(UP)—The Puruss, Red Cross liner Rosalind, which sent out distress signals yesterday after losing its propeller in a storm, was believed to be in no immediate danger today. Some fear was felt for two other vessels.

The liner Newfoundland, bound from Halifax to Liverpool, changed her course and is speeding to assistance of the Rosalind. The Franklin Foundation, a Newfoundland government craft, is standing by. About 100 persons are reported aboard, including 55 members of the crew.

The Rosalind was believed to be about 200 miles off of Halifax, bound for New York.

INCOME TAXES TO YIELD LESS THAN YEAR AGO

Four Million Persons Expected to Pay Installment March 16

WASHINGTON, March 6.—(UP)—An army of approximately 4,000,000 federal taxpayers prepared today for the annual "battle of the income tax."

Wage-earners and multi-millionaires alike will pay more income taxes at a rate one per cent higher than in 1930 when a temporary tax cut was in effect. The change back to the 1929 rate was the only important difference between the terms this year and last.

Indicating the size of the job confronting the internal revenue bureau, 16 carloads of paper were needed to print forms distributed to the nation's taxpayers.

Receipts from income tax collections due at midnight March 16 are expected by the treasury to be considerably less than last March despite the increased tax rate. Last March the treasury received \$559,000,000 from this source.

For the last calendar year the treasury collected in income taxes \$2,332,968,393, which was \$170,000,000 less than for the preceding year. Income taxes account annually for about half the total revenue of the government. Cost of government is about \$4,000,000,000 annually.

Corporations, though numbering only about a fourth of the individual taxpayers, contribute most of the income tax to federal revenues. The corporation normal tax rate is now a flat 12 per cent.

YOUNG FILM STAR GETS \$7500 WEEKLY

LOS ANGELES, March 6.—(UP)—Jackie Coogan, youthful screen star, today faced an experience which would have beggared the pen of Horatio G. Alger, whose fictional young heroes always made good in a big way.

The juvenile actor, now 16, was to have Superior Judge Marshall F. McComb sign approval to a new film contract with Paramount calling for a salary of \$7,500 weekly.

With Jackie was to be Mitzi Green, another juvenile film star, who sought approval of a contract stipulating a salary graduated from \$625 to \$1250 weekly.

JURY DEADLOCKED IN BRIDGE MURDER

KANSAS CITY, Mo., March 6.—(UP)—The jury was deadlocked today in the trial of Mrs. Myrtle Bennett, charged with murdering her husband, John G. Bennett, after a quarrel over a bridge game.

The 12 men to whom the case was given last night resumed deliberations at 9 a. m. The morning wore on with no indications from the jury room that a decision was near.

Mrs. Bennett and her chief defense attorney, former United States Senator James A. Reed, were in the courtroom early.

Their worry was obvious as time passed with no prospects of a verdict.

Fine Wine Is Sold For 6½ Cents Gallon

LOS ANGELES, March 6. (UP)—Scofflaws who pay as high as \$50 a case for bootleg wines, shed tears today as they learned that 100,000 gallons of Southern California's finest vintage, had been sold by a federal referee in bankruptcy—for an average of 6 1-2 cents a gallon.

This latest quotation came to light when Mrs. Mary Q. Baumgartner, administratrix of the estate of her husband, Frank, wine dealer, who disappeared mysteriously 18 months ago, told Probate Judge Charles S. Grail that the estate, first appraised at \$250,000, had dwindled to \$5000 because of the low price obtained for the wine by the referee in selling it to bonded warehouses.

DRY BOURBONS OPENLY ATTACK JOHN J. RASKOB

Party Machinery, However, Will Attempt to Carry Out His Program

WASHINGTON, March 6.—(UP)—Undaunted by opposition of dry leaders, those in control of the Democratic party machinery will press for adoption of the Raskob "home rule plan" for prohibition modification in the platform for next year's presidential campaign.

The assault of dry forces against this course at the Democratic national committee meeting here yesterday was staged with unrestricted fury. Never within memory has a national chairman been subjected to such sharp and direct criticism as was showered upon John J. Raskob. It was unprecedented that a Democratic of the prestige of Senator Joseph T. Robinson, senate minority leader and vice presidential candidate on the Smith ticket in 1928, should lash the party chairman to his face in such bare fist fashion.

But Raskob and his backers remained confident that the issue must be met and that it should be met in some way similar to that proposed.

Party morale was shaken temporarily at least by this outburst of feeling which provoked hissing and catcalls. The voices of dry leaders in and out of the party were being heard from today as men like F. Scott McBride, superintendent of the Anti-Saloon league, and Joseph Daniels of Raleigh, N. C., one of the influential spokesmen in the south, assailed the proposal.

Famed Transfer Man in Colorado Mining Town Dies

DURANGO, Colo., March 6.—(UP)—Charlie Rew, who wore a straw hat and overshoes the year 'round and drove his transfer horse at the old mining town of Silverton for 45 years, is dead.

"Charlie" as he was known to thousands for his eccentric ways, was 78 years old. He had never married and had no patience with "new fangled" ideas. He clung to his horse delivery through the years despite the automobile.

Rew was born in England and came to this country when he was a young man. One sister survives him.

CYCLONE HITS ISLAND

CAPE TOWN, March 6.—(UP)—Many persons were reported to have been killed in a cyclone at Port Louis, capital of the island of Mauritius, formerly Ile De France.

The city was without light and communications were interrupted. Reports received here said. Banks and business houses were closed.

GASOLINE GOES DOWN 2 CENTS THIS MORNING

Standard Oil Company Cuts to 12½ Cents a Gallon to Meet Competition

MAJOR OIL COMPANIES today posted gasoline signs of 12 1-2 cents per gallon, a two cent cut, as the latest move in the "gas war" centering in Southern California.

Officials were reluctant to give statements of the latest cut, merely saying that the slash came to "meet competition." It was said by one oil company executive that independent stations were "selling as low as 10 cents a gallon."

The cut today came from Standard Oil. It was said, with other major companies taking the same action almost simultaneously.

Shell, Texaco and Union stations soon were selling at the 12 1-2 cent figure.

Richfield Oil company also announced fuel was selling at 12 1-2 cents in the Los Angeles in the Los Angeles district.

The price cutting was started a week ago when the retail price at stations was 20 1-2 cents a gallon.

The two-cent slash to 12 1-2 cents followed on the heels of a banquet of the California Oil and Gas association attended by 1,000 oil men in Los Angeles last night at which Gov. James Rolph, Jr., took a stand against the cutting of prices.

The Governor said he favored an embargo on oil products and a modification of national and state anti-trust laws to permit trade agreements by which prices could be fixed, insuring a fair profit and insuring the public against excessive profits.

PASSING OF WORLD BLOW--ADOLPH OCHS

LOS ANGELES, March 6.—(UP)—The passing of the New York World, purchased last week by the Scripps-Howard interests, was, in the opinion of Adolph S. Ochs, publisher of the New York Times, a "blow to American journalism."

Ochs, Mrs. Ochs, Clark Howell, publisher of the Atlanta Constitution, and Mrs. Howell, returned here yesterday from Honolulu.

"The World had been a diligent crusader, resourceful, fearless and independent, and would have remained a power today had it not been built around a single personality, Joseph Pulitzer, who died," Ochs said.

6 NEGROES WOUNDED WATERFRONT STRIKE

NEW ORLEANS, La., March 6.—(UP)—A fresh outbreak of violence in the strike of 7000 longshoremen occurred today, when an unidentified white man fired on a truckload of non-union laborers and wounded six of them, one seriously.

Twenty-one Negroes were in the truck.

Richard Moncrieff, 29, was seriously wounded. The sniper escaped.

WINNERS IN BIRD COLORING CONTEST ANNOUNCED TODAY

Waiter Parts With \$10 Tip And Food

SAN FRANCISCO, March 6.—(UP)—Gene Sournival, waiter, didn't bite a dog to become a subject of news, but he did the next best thing—he tipped a customer \$10.

Waiter Sournival didn't do it voluntarily. As he stepped from the elevator to the second floor of an apartment house with a tray of food, two men held him up, bound him and departed with Sournival's \$10.

And they took the food, too.

HIGH OFFICERS OF EPISCOPAL CHURCH COMING

Delegation Headed By Bishop Stevens Will Pay Visit to County

HIGH CHURCH OFFICIALS and dignitaries of the Episcopal church in the diocese of Los Angeles will be in Orange county next Wednesday, March 11, for a visit to five parishes and bring a message from the leaders of this denomination to members of the churches.

The official party will be headed by the Right Rev. W. Bertrand Stevens, bishop of the Los Angeles diocese. Other members of the party will be Dr. Robert B. Gooden, suffragan bishop, Dr. Royal Balcom, general missionary, and Dean Lewis, of Whittier.

Members of the various parishes visited will join the party as it proceeds on the tour through the county. The schedule calls for visits as follows: Santa Clemente, 10 a. m.; Laguna Beach, 11 a. m.; Santa Ana, 12 noon. The meeting in Santa Ana will be held in the Church of the Messiah, Seventh and Bush streets, of which the Rev. W. J. Hatter is rector. Members of the congregation will greet the visitors with the Pilgrim song.

During the afternoon, on the return to Los Angeles, the party will visit parish churches in Orange and Fullerton. A short address will be made by Bishop Stevens at each church.

The visits in Orange county are part of a visitation which is being made to 119 parishes in the Los Angeles diocese.

WYOMING FROWNS ON GIN WEDDINGS

CHEYENNE, Wyo., March 6.—(UP)—Weddings in Wyoming won't be as hasty as they used to be, for that matter, neither will divorces, the state's legislators believe.

Acting Governor A. M. Clark late yesterday signed a measure requiring couples to file an intention to wed notice five days before they can take out a marriage license.

The bill was sponsored with the slogan, "end gin marriages" and was aimed at hasty and ill-considered weddings.

Committees Are Named At Meeting

Further Discussion Will Be Held on Problem at Gathering Saturday

WAYS AND MEANS of securing funds to provide for the unemployed of Santa Ana and selection of a public improvement to be attempted for the benefit of the entire community, were discussed at a meeting of the city wide unemployment committee at the Santa Ana cafe at noon yesterday. William J. Tway, chairman of the committee which is endeavoring to find a satisfactory solution of the important problem faced by the city in caring for its unemployed, presided at the meeting.

Suggestions of a house to house canvass and solicitation of funds; voting a bond issue; levying a special tax or increasing water rates to provide funds which could be used in paying men engaged in some civic improvement, were advanced during the discussion.

Additional Funds

The great need of providing additional funds for work for the unemployed was stressed at the meeting. City officials attending advised that funds available for street improvement work were nearing the exhaustion point and that practically all the street work and other work requiring manual labor had been practically cleaned up.

A goal of \$40,000 was set during the discussion, which it was pointed out would provide payment for 10,000 man days of labor, or on the part time schedule that has been practiced thus far, giving men three days of work a week, it would be stretched out to cover an appreciable term of time, even with a crew as large as 500 in number.

Opinion expressed at the meeting seemed unified as to the project on which the funds should be expended as a public improvement. Creation of a parkway in Santiago creek was favorably mentioned, as it was pointed out that it would create positions for a maximum of men and require very little expenditures for materials. It was suggested that the construction of the dam above Irvine park which project is now

GUARD CHINATOWN FOLLOWING KILLING

SAN FRANCISCO, March 6.—(UP)—Police guarded San Francisco's Chinatown against the outbreak of a long war today after the killing of Wong Shee Dow, 44, in what was described as a family feud.

Wong Sing Chong, 24, a cousin of the dead man, was held on a charge of murder after he assertedly confessed the slaying. Chong refused at first to assign a motive for the shooting but later said he had had a "business quarrel" with his relative.

Police said they learned the two had no business dealings, and rounded Chinatown patrols to prevent possible reprisals from the victim's branch of the Wong family.

Chamber Members Served Subpoenas By Tijuana Chief

SAN DIEGO, Calif., March 6.—(UP)—The next time officers of the Tijuana National Chamber of Commerce get the members to attend a meeting, they will lock all the doors, nail up all the windows and plug the keyholes.

And to insure attendance of the members at the meeting tomorrow, subpoenas have been issued and are being served today by the Tijuana chief of police.

At yesterday's meeting several resolutions calling for the abolition of gambling in Tijuana were offered and members made impassioned pleas for adoption of the resolutions, which referred to the Foreign Club, Agua Caliente and other gambling places.

The surprise came when Manuel Inzunza, president, ordered the roll called. The members fled,

WILL ROGERS SAYS:

BEVERLY HILLS, March 6.—[To the Editor of The Register:] We finally found how to keep from calling an extra session of Congress—appropriate all the money at the last one. That little fellow Einstein sailed away for Germany yesterday. And we sure do miss him in California. The radios, the banquet tables and the weeklies will never seem the same. He came here for a rest and seclusion. He ate with everybody, talked with everybody, posed for everybody that had any film left, attended every luncheon, every dinner, every movie opening, every marriage and two-thirds of the divorces, in fact he made himself such a good fellow that nobody had the nerve to ask him what his theory was.

Yours

WILL ROGERS.

\$2,000,000 DAMAGE CAUSED BY STORMS

BOSTON, March 6.—(UP)—Devastation unparalleled in nearly a generation lay today in the wake of three monster tide waves which rolled in from a turbulent and storm torn Atlantic Wednesday and yesterday and hammered a 200-mile stretch of the New England coast.

Estimates of the damage ranged upward of \$2,000,000.

Scores of seaside houses were in ruins. Others had been carried to sea. Breakwaters at many points had been destroyed or severely damaged. Rail lines, trolley tracks and highways had been washed out. Hundreds of persons were homeless. One ship was foundered, another had narrowly escaped a like fate, and several others had been imperilled.

Hero of Accident Receives \$21,500 For Loss of Foot

SAN FRANCISCO, March 6.—(UP)—Thirteen-year-old Tommy Watson, of San Francisco, a brother of Mrs. Herbert Hoover Jr., will receive \$21,500 for the loss of his left foot suffered while playing a hero's role in a street car accident, according to an agreement of city officials today.

Tommy, a Boy Scout, was pinned in the wreckage when two municipal street cars collided in a tunnel. He refused aid until Motorman Arthur Anderson, whom he said needed help first, was extricated. Anderson died a few days later.

The boy's foot was so badly mangled that amputation was necessary. Damages for his injury were agreed upon by municipal attorneys.

MOTHER AND THREE BABES SUFFOCATED

Only Screen Over Window Prevents Little Family From Getting Away

NEIGHBORS ASSIST

Fire Started in Stove As Little Ones Sleep Is Cause of Catastrophe

GRANTS PASS, Ore., March 6.—(UP)—A mother and her three children were burned to death when their home was destroyed by fire here today.

The dead: Mrs. Mary Groat, 24, Billy Groat, 5, Jack Groat, 4, Dorothy Groat, 2 months.

All died of suffocation and only a screen prevented their escape from the flaming dwelling.

When the fire was discovered by neighbors, Mrs. Groat was frantically trying to break a window glass. Mrs. Pollard, a neighbor, reached the outside of the window first but was unable to get the screen off. She summoned O. C. Ogden, another neighbor, who pulled off the screen and kicked in the window.

The heat became so intense by that time, however, that he was thrown 10 feet back from the house as the blast struck him.

Firemen poured water into the room and took out the bodies. Only Mrs. Groat had been touched by the flames. The babies lay on the floor dead of suffocation.

The fire was started in the stove by the children's grandfather, who went to work before the family was to arise.

YOUTH KILLED AS \$1.75 AUTO SKIDS

RIVERSIDE, Calif., March 6.—(UP)—Chester and Henry Church, brothers of high school age, trapped for days to find a used automobile which they could afford.

Finally, they found one on a junk dealer's lot and paid \$1.75 for it. Then followed endless hours of patching, repairing and replacing, until late yesterday, when the new-old car coughed courageously and the boys climbed in for their first ride.

A few blocks from the Church home here, the little machine skidded and turned over in a ditch.

Chester, aged 15, was killed instantly. Henry escaped with minor bruises.

President Ready to Appoint Muscle Shoals Commission

WASHINGTON, March 6.—(UP)—President Hoover is planning to appoint a non-salaried commission to study his recently announced project for disposal of Muscle Shoals, it was learned authoritatively here today.

The president is understood to believe such a commission might be able to agree upon a basic arrangement for presentation to congress when it reconvenes.

Mr. Hoover made his counter offer in vetoing the modified Norris Muscle Shoals bill. He proposed that congress authorize a commission composed of representatives from Alabama, Tennessee, the army corps of engineers and national farm organizations. He suggested this commission be given power to get the best possible lease for the plant.

STREET ACT SUSTAINED

WASHINGTON, March 6.—(UP)—The supreme court today indicated it would sustain the validity of the California street opening act as applied by the city of Los Angeles under its "five finger" highway development plan. The high court refused to hear argument by attorneys for the city of Los Angeles in an appeal attacking the act's validity brought by Leonard J. Woodruff, of Los Angeles.

under way, would open the door for this project.

A meeting with representatives of financial and real estate interests of the city for further discussion of the problem and selection of the best method of raising funds to provide employment and the project to be chosen, is to be held at 9 a. m. Saturday in the council chamber.

Finance Plans
One suggestion as to a method of financing the program for relief, which met with considerable approval by those present at the meeting, was that water rates could be increased 25 cents a month. In this manner the necessary funds could be raised over a two year period, with the money advanced for the present needs from other city funds and repaid as earned by the water department.

During the discussion it was brought out that the need for emergency measures of some kind was shown in the fact that there are 900 bona fide Santa Ana families out of work, with no income.

Committees were appointed yesterday by Tway to further the project as follows: A. N. Zerman, Walter Vandermast, Dr. George Warner and George Raymer, committee to arrange the Saturday meeting and secure support of a group of representative citizens to appear before the council next Monday night; W. C. Jerome, C. E. Rutledge and Earl Ruddy to contact members of the city council on the problem.

Included in those present at the conference yesterday, in addition to Tway and the persons who were appointed to committees, were Nat Neff, Mrs. Belle Spangler, J. F. Burke, Clyde Jenken, Stanley Goode, Mrs. J. H. Leebrick and Frederick Sanford.

Plunges 75 Feet to Canyon Floor And Hurts Ankle

Falling 75 feet into a canyon and living is something to talk about, but falling 75 feet from a truck in a canyon and "getting away with it" is something to "write home about."

This was the experience yesterday of C. O. Calvin, 35, road worker on the Palisades road at Coronado del Mar. He is in the Orange County hospital, suffering from a sprained ankle, and thankful that is all.

No Trace Found of Bank Robber

No trace has been found today by sheriff's officers in their search for the lone bandit who yesterday morning held up the Bank of Cypress, escaping with \$500 in cash taken from Andrew Moore, cashier and manager of the bank. Sheriff Logan Jackson reported today.

Authorities were still of the opinion, they said, that the man escaped in an automobile which had been parked around the corner from the bank, but so far as is known, no one saw the bandit car leave.

Badgered by congress since the board's inception, Legge has been anxious to resign for the past year, but always was persuaded by Mr. Hoover to remain a little longer.

New to politics and government red tape, Legge was lost for a while after he came here two years ago. But his independence and outspokenness have won over many an enemy he once had on capitol hill.

Appearing before congressional committees, he always spoke his mind frankly, regardless of the results and consequently was often misinterpreted and misunderstood. His most recent controversy with congress was over his remarks before the senate agriculture committee at which he was quoted by some senators as saying the board purposely was depressing cotton and wheat prices to increase consumption and absorb overproduction. Senator Thomas, Democrat, Oklahoma, his chief opponent at that time has since been won over to Legge's agricultural policies and has pledged the board his support in the senate.

His duties here completed, Legge will return to take up the reins with the International Harvester company and to organize the "Agricultural Foundation," a dream of his to cure the ills of agriculture.

ed out, however, that the number of employed was slightly more than that of a year ago.

The report stated that the slight decrease in general employment was expected to recover ground during March as a number of public improvement projects get under way.

Agriculture, the report said, was holding fairly steady with growers basing operations on expected returns no greater than those of last year.

"They are watching costs carefully and are showing a tendency to hold acreage of seasonal crops down to a reasonable degree," the agricultural section of the review stated.

Building permits in the Los Angeles area were slow, three per cent below those of January and five per cent behind the figure set in February, 1930.

Speaking of employment conditions, the review said: "It is interesting to note that for the first time in many months employment in the petroleum industry showed a slight gain."

During the year 1930, the number of transoceanic calls from the state of Connecticut to foreign countries exactly doubled the number placed in 1929. The longest call made from Connecticut during the year was one to Australia.

HOLD FUNERAL SERVICES FOR ED R. JENSEN

Amid scores of his friends and acquaintances, funeral services for Ed R. Jensen, popular Santa Ana motorcycle officer, who was fatally injured last Saturday in a crash at First street and the Santa Fe railroad tracks, were held yesterday afternoon at the Winbiger funeral home.

The funeral was one of the largest that has been held in Santa Ana for several years and the chapel of the funeral parlors was crowded to overflowing when the Rev. W. H. McPeak, pastor of the United Presbyterian church, started the services at 2 o'clock.

The entire Santa Ana police force, in uniform, attended the services in a body, which marched from the police station to the funeral parlors under Chief of Police L. C. Rogers. Members of the Orange county squad of the state police, and approximately 20 other officers in uniform from various points in Southern California also were in attendance to pay their last respects to a brother officer—another victim of the road.

Following the services at the chapel, the funeral procession was escorted to Fairhaven cemetery by a squadron of some 20 motorcycles, while an aerial escort flew slowly overhead, and later dropped flowers on the grave.

At the cemetery, the Santa Ana post, No. 131, American Legion, took charge of special American Legion services for a departed comrade and the Legion ceremony closed when a long-draped casket was slowly lowered into its final resting place.

Pall bearers were brother police officers of Officer Jensen, members of the Santa Ana police department.

ACCIDENT VERDICT RETURNED BY JURY

A coroner's jury returned a verdict of accidental death in the case of William Furber, 13-month-old son of Mr. and Mrs. Jesse Furber, at the Backs, Terry and Campbell funeral parlors in Anaheim yesterday, at the same time intimating in their report that the child died from poison, probably thallium.

The baby is believed to have died from eating wheat, containing gopher poison, fed him accidentally while he was being cared for by Mrs. Hattie Kelsay, of 312 East Sycamore street, Anaheim.

Mr. and Mrs. Kelsay and two sons, John and James, also suffered from the effects of eating the wheat, but their condition today is not serious.

Contents of the baby's stomach were sent to Los Angeles for analysis, and have not been returned to Orange county, Dr. Elizabeth Tock, autopsy surgeon reported at the inquest yesterday, so there was no way to determine the kind of poison, although thallium is suspected, Coroner Brown said.

ESCAPED PRISONER RETURNED TO JAIL

Three hours after Arthur C. Hudnutt, trusty, working with the chain gang at the county park, took "French leave" from his fellow prisoners, yesterday afternoon, he was rounded up by Deputy Sheriffs Dean and McKeivley, six miles north of El Toro, riding in an automobile.

The officers stopped the car, took their prisoner out and returned him to the county jail.

Hudnutt was in jail here on a check charge and had been acting as cook for the chain gang working at the park. While the guards and other prisoners were away yesterday, he walked away and was not missed for some time.

As soon as the alarm was sounded, deputies scoured the country, resulting in Hudnutt's arrest.

Release Sota in Still Case Here

John Sota, Los Alamitos man, arrested in connection with the capturing of a still on his property several days ago by sheriff's officers, was released today on his own recognizance in Justice Kenneth Morrison's court.

Justice Morrison said that the district attorney's office probably would not prosecute the case, on the grounds that Sota was merely the owner of the property where the still was found and was not the owner of the still.

Professor Erdman To Talk Tonight

Professor H. E. Erdman, of the division of agricultural economics of the University of California, will be the featured speaker at a meeting of pepper and strawberry growers at the Women's clubhouse in Garden Grove tonight.

Today he was conferring with officers of the Farm bureau, the extension service and prominent growers of peppers in the vicinity to supplement price and yield information to be published by the university. He is searching records for 10 years back in an effort to obtain accurate figures.

HASENJAEGER IS CANDIDATE FOR COUNCIL

His candidacy for city trustee of Santa Ana, representing the fifth ward, was announced today by A. C. Hasenjaeger, manager of the Southwest Building-Loan association, 217 North Broadway.

During his residence in Santa Ana, Hasenjaeger was for two years manager of the office of the Santa Ana city water department, and while engaged in that capacity had an opportunity to become thoroughly acquainted with city affairs.

For the past two years, Hasenjaeger has been manager of the building and loan association, which association has made a signal success. In addition to his building and loan business, Hasenjaeger is now developing a ten acre orange grove at 1740 North Baker street, which place is his residence.

Before coming to Santa Ana, Hasenjaeger had many years of business experience. For 22 years, in the state of Missouri, he was connected with the banking business, always in active leadership. For a number of years he was a bank examiner for the state of Missouri.

Hasenjaeger is vice president of the Round Table and president of the Toastmasters club.

"As a citizen, I am very much interested in the welfare of Santa Ana," said Hasenjaeger. "I have faith in the city, of course, or I would not have selected it for my home, and my faith is further shown by my investments here. On account of owning my home and orange grove inside the city of Santa Ana, I can see the viewpoint of the ordinary taxpayer of Santa Ana, and certainly the interest of the taxpayer is something that ought to be very near to the heart of every city councilman."

"If I am elected, I shall make it my personal aim to use my very best business judgment in carrying on the business of the city. I believe that economy, in these times, is necessary, and every kind of a useless city expenditure should be done away with. I have had a wide experience in business, and I hope that this experience can be of use to the people of Santa Ana."

\$70 TAKEN FROM HOME

ANAHEIM, March 6.—Burglars entered the home of Nora Gallagher, apartment 3, Marietta court, Wednesday night and escaped with \$70 in currency, according to a report filed at the police station yesterday by Mrs. Gallagher.

DEATHS

A WORD OF COMFORT

A simple phrase, which somebody used the other day, intrigues me; perhaps it will, too. It was "the availability of God."

We hear about God and we think and speak about Him, but evidences are manifold that we too little recognize and "make use of" His availability.

We struggle on alone as best we can with a steadfastness, which surprises us and our friends, and simply ignore the fact that God is willing to help, that His power and love and guidance and companionship are "nearer to us than breathing" and available at any instant and always.

Do not try to "carry on" alone; the burden is too heavy for you. Give Him the chance to help and to multiply your strength.

Calvin Coolidge Says

By CALVIN COOLIDGE, NORTHAMPTON, Mass., March 6.—The senate has resolved that the executive department of the government should take no action concerning making foreign loans by the people of this country. Early in the Harding administration when credit was scarce and interest high, foreigners were borrowing our capital. There was nothing to prevent their getting it even to use in hindering our own efforts for domestic or international welfare. Hence the suggestion, adopted after conference with banking interests, that the state department be consulted before consummating such loans. Such a policy is pursued by some if not all foreign governments.

While there is much to be said for permitting our people to do what they want with their own money yet it seems clear that there should be some harmony of policy between the great power of finance and our international relations. No responsibility is undertaken by the state department in stating its position concerning a loan. It does not assume the credit of the borrower is good or bad nor imply any additional burden to our government if the loan is not paid. It does assume that our financial power shall be conserved for our own people and shall co-operate with our diplomatic power.

Kotex comfort lasts

because Kotex absorbs away from the surface

YOU want more than mere surface comfort in sanitary protection, and Kotex gives you more. It absorbs away from the surface, leaving the protective edges dry and comfortable during use.

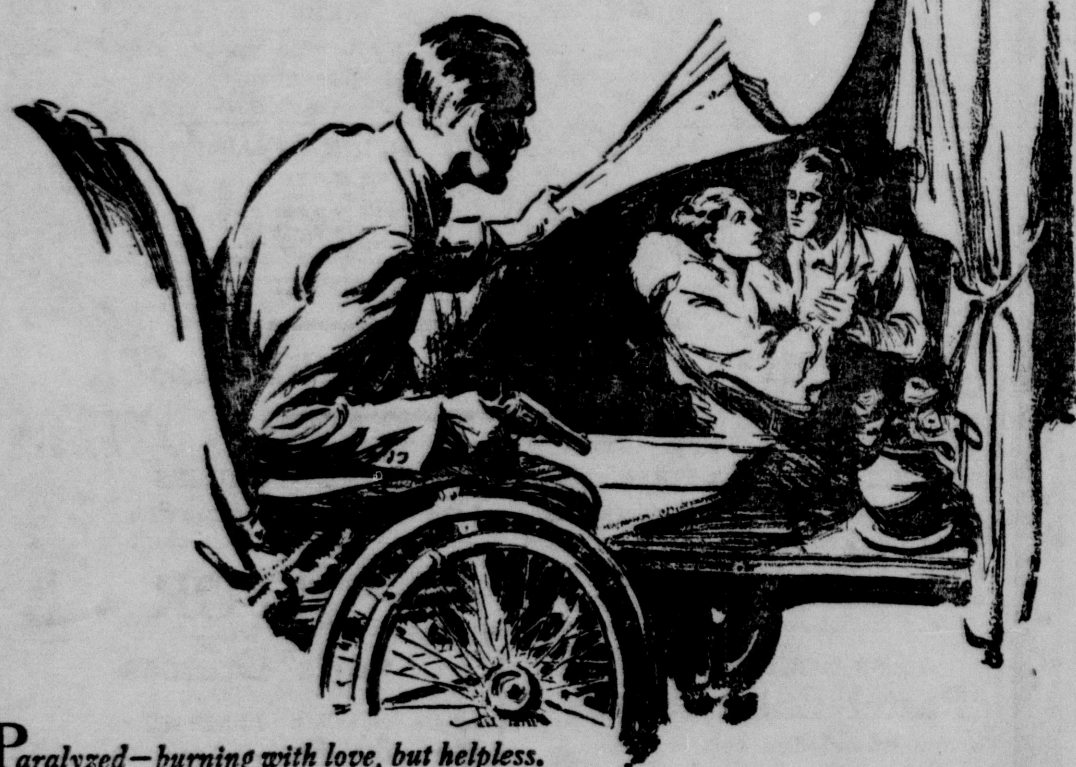

Kotex may be worn on either side, with the very same protection, because both sides are equally absorbent. No danger of embarrassment from wrong adjustment.

There's a delicate, fleecy softness about Kotex. What a comfort during warmer days when this problem is more difficult than usual.

Hospitals specify Kotex for the protection and comfort of their women patients. It is disposable, you know, quickly and easily. Once you try Kotex, no other way will satisfy you again.

SUICIDE? MURDER? MIRACLE?

Paralyzed—burning with love, but helpless. What could this husband do to save his adoring wife from her battle with Nature's forces?

AN aura of sweet womanhood—Olga, my young wife. Her rapt devotion—my growing business—my very life—they all seemed blasted with that horrible accident.

"John," the doctors said, "you'll never walk again." I didn't tell Olga. I couldn't shatter that glow of hope in her eyes—hope that blazed with desire—the day she met Del Raignon.

Raignon—unscrupulous matinee idol—he knew! Helpless, I watched him play on her loving, innocent nature—biding his time till Olga no longer could resist him. How I suffered—prayed for her—ragged with jealousy—and dropped to the dregs of despair.

That night—my revolver. "Goodbye, angel-heart," I whispered and—THEN! Out on the lawn—I saw Raignon take her—my wife—in his arms. "I can't let her live in that disgrace," I cried. Slowly I raised my revolver—carefully I took aim—and...

What did John do? In that awful climax, did he kill Olga to save her from disgrace with Raignon? Or did he murder that cad—an act which would blacken him forever in the eyes of his wife—of society—of God?

What almighty miracle could have come to solve this pitiful tangle of helpless human destinies? You must read for yourself BECAUSE I LOVED MY WIFE—the true, heart-rending story of a man who wheeled his way through hell in an invalid's chair—and what he finally found at the very brink of oblivion.

ORANGE COUNTY BANK DEBATERS WIN DECISION

A debate was held in the banking room of the First National bank last night between San Diego chapter of the American Institute of Banking and the Orange county chapter. The subject was, "Resolved, That the Nations of the World Should Adopt a Policy of Free Trade." The Orange county debaters won the decision.

The affirmative of the question was upheld by San Diego's team, composed of Stanley Miller, of the San Diego Trust and Savings bank, Anderson Northwick, of the First National bank of San Diego, and William Shotts, of the San Diego Trust and Savings bank. The negative side, upheld by Orange county chapter, was handled by Miss Katherine Spicer, of the First National bank of Santa Ana, Kenneth Goodale of the Bank of America, Fullerton, and Harold Fish, of the First National bank of Santa Ana. The judges were Judge G. K. Scovel, J. A. Crans-ton and Willard Smith.

The closeness of the debate was evidenced by the decision, which was two to one in favor of the negative.

This is the third debate engaged in by the Orange county chapter, but the first in the qualification for national honors. The size of the audience and the attention given the debaters was an indication of the interest shown in debating by the people of Orange county.

Seeks Separate Maintenance in Suit Filed Here

Suit for separate maintenance was filed yesterday in superior court by Evelyn A. Stone against Hubert T. Stone. They were married in Winnipeg, Canada, March 31, 1908, and have five daughters. Separation occurred on February 22, 1931.

The plaintiff asserts in the complaint that she has grounds for divorce on the basis of charges of extreme cruelty, but that she does not seek a divorce. She asks the custody of the two youngest children and an order for \$50 monthly for support.

Mrs. Stone charges that her husband refused to show to her and the children the kindness and consideration due from a husband and father, and that he insists on excessive participation in fraternal activities, depriving the plaintiff and children of the necessities of life by his excessive spending in this regard.

PLAY PRODUCED BY LEGION TO OPEN TONIGHT

With every character in the American Legion play, "Outward Bound," assembled on the Ebell stage last night at 7:30 o'clock, the director and production manager, Harry Brockett and George Richardson, held a long session in the final complete dress and property rehearsal before the first presentation of the drama tonight in the Ebell auditorium.

"Outward Bound" has been under production for a number of weeks, and the constantly mounting interest among play-goers of the city, would indicate that it will play to crowded houses at both performances. It is to be presented with an all-local cast both tonight and Saturday night, as a benefit for Santa Ana post, American Legion.

The audience will find itself gazing at an unusual scene when the curtain rises, for instead of the usual stage interior or even garden scene, it will be apparent that the action is taking place aboard ship. For "Outward Bound" finds its setting on a mysterious small ocean liner bound for who knows what distant port?

Those responsible for the carefulness to detail have found themselves with many problems to solve, but everyone who has seen the manner in which the play is taking form, feels that all have been satisfactorily solved. The setting is the ship's salon, and through the doorway leading to the deck, may be glimpsed the blue sea. The varying lighting effects from early morning to late afternoon, have been worked out by two capable Legionnaires, Robert Weston of Gilbert, Weston and Stearns, and E. E. Christensen of the Santa Ana Electric company.

The scenic effect itself, has been worked out by Lillian Morrell Richardson, a member of the Laguna Art association, and hanging on the walls of the salon, are two of her pictures which recently received honorable mention at the Los Angeles museum of Fine Arts.

Those taking part in the play are Harry Brackett as "Scrubby," Fritz Stroh as "Anne," Leslie Steffenson as "Henry," Edwin Belsel as "Tom Pryor," the part which Everett Edward Horton did so beautifully in the Los Angeles stage production; Louise Montgomery as "Mrs. Cliveden Banks," Bess Browning as "Midg-et," C. James Norton as "Rev. W. Duke," George Richardson as "Mr. Lingley" and Wally Grigg as "Thompson."

The curtain at each night's performance will rise promptly at 8:15 o'clock. Proceeds from the play will be devoted to the Legion's charity program for the year.

YOUTHFUL LOVERS

"Henry" (played by Leslie Steffenson) and "Ann" (Fritz Stroh) are the two youthful lovers in "Outward Bound," Sutton Vane's remarkable drama which a Santa Ana cast of players will present tonight and Saturday night in Ebell auditorium, under the auspices of Santa Ana post American Legion. The puzzlement of "Henry" and "Ann" at finding themselves aboard the ship, is one of the contributory causes to the climax of the play and the final explanation which provides so eerie a conclusion to the voyage for those who are "Outward Bound."

MODERN YOUTH TOPIC OF TALK BY DR. BARKER

Dynamically presenting the problems of modern youth and giving a graphic solution for parents and children alike, Dr. Charles Barker, noted lecturer on educational topics, was the principal speaker at the regular monthly meeting of the Santa Ana high school and junior college Parent-Teacher association held last night in the high school auditorium.

The speaker, with the subject of "Responsibilities of the Father and Mother to Their Children," opened his talk by deprecating the current tendency in educational circles to spend thousands of dollars on methods of teaching agriculture, animal husbandry and allied subjects and totally ignoring the important task of rearing and taking care of families.

"There is no more important job in the world than being a father or mother," the speaker declared, "but very little of our educational system has anything to do with training in this line. Our children should be taught to raise better families instead of how to improve the breeds of cows, horses, pigs and other animals," he continued.

Dr. Barker, who is the only lecturer sponsored by Rotary International, presented four main responsibilities for the modern parent. They were the responsibility of the expectant mother to take proper exercise and care of herself, to attend church every Sunday for the influence on the children of the community and self-improvement, to teach children to obey when spoken to and to explain at various ages, the problems and things every child ought to know.

Dr. Barker addressed the student bodies of the Tustin and Excelsior high schools Thursday morning and afternoon and a number of these students were present last night. Repeating some of the points stressed at these student gatherings, the lecturer demonstrated the proper manner of conduct among students to eliminate the dangers of the practice popularly called "petting."

Dr. George A. Warner, president of the group, held a short business meeting before turning over the program to Mac O. Robbins, chairman for the evening. A nominating committee to select candidates for officers for the next school year was nominated and included Sam Hurwitz, Mrs. Roy Beall, W. I. Gibbs, Leon McMullen and Mrs. E. H. Heinle. Following the lecture, conferences were held between the instructors and parents in the hall.

PAINTINGS TO BE SEEN IN LIBRARY

Santa Anans who saw the exhibit of contemporary paintings held during the past two weeks in the basement of the Santora building with three well-known local artists, Miss Jean Goodwin, Arthur Amers and Robert Gilbert, among the exhibitors, will be interested in learning that the pictures are to have their next showing in the Los Angeles public library.

The galleries of the library are

well adapted for the display of canvases, with excellent lighting facilities, and exhibits there always attract a great deal of attention. The fourteen artists whose representative work is to be found in this particular collection, were gratified at the consideration given them by the library for they have as their ideal, the presentation to the public of works of the modern school and familiarizing everyone with what present day artists are seeking to accomplish.

The exhibit will open in Los Angeles on April first, and it is possible that one or two other well-known Southland artists may join the group and add additional canvases to the approximately half hundred shown in this city.

Ben-Hur flavor and desired "body" never vary if measurements are alike. No watching! One-third LESS coffee.

when made the more healthful Ben-Hur way

Ben-Hur Drip Coffee, made by the more healthful drip-filtration method, is as far in advance of boiled or percolated coffee as the electric light is ahead of the oil lamp! Comparison of Ben-Hur Drip with any coffee in the world at any price will confirm that sincerely-expressed statement.

Ben-Hur Drip is changing the coffee-habits of a nation! By its drip-filtration method of making the insoluble resinous fats or oils (causing nausea, indigestion, biliousness, sleeplessness) are FILTERED OUT! These objectionable substances are present in every cup of boiled or percolated coffee, together with a maximum quantity of tannin. By the drip method, tannin is also reduced to a negligible amount... because hot water is poured OVER the coffee—no boiling! Realize what these scientific facts mean for SAFE home coffee. Ben-Hur Drip, made the drip way, will prove to you that it is not only more healthful, more satisfyingly delicious and richer in aroma than any other REAL coffee you ever drank, but that IT AGREES! Your delight will be supreme!

Ben-Hur Drip Coffee is specially prepared for every exacting requirement of the drip method. To grind any other boiling or percolating coffee for drip process is not only an injustice to that coffee but disappointing in results. Drip coffee's more healthful delights are assured by BEN-HUR Drip. Don't be misled.

... Coffee flavor that TASTES like the aroma from a newly opened can!

FREE: With ANY COFFEE POT, Ben-Hur authorizes your grocer to present you FREE a \$2.00 Ben-Hur Healthful Coffee-maker when you buy a pound of Ben-Hur Drip Coffee and a dollar box of 700 filter papers (a year's supply for the average family). BIDS OPENED ON H. B. SCHOOL GYM

HUNTINGTON BEACH, March 6.—Bids for the construction of the elementary school plunge and gym were opened Wednesday afternoon by the board of education, with Superintendent C. B. Baldwin and Architect Fred H. Eley, of Santa Ana, present. There were 17 separate bids advertised for and about 60 contractors submitted bids on the various 17 different items. The board of education, the architect and the school superintendent will review the various bids and determine which bids are lowest.

As soon as the low bids are determined the contracts will be signed and actual construction work started. It is estimated that the school board will spend in the neighborhood of \$100,000, providing the school with a modern gym and plunge and providing work for unemployed men. The architects' plans on the new building are in the office of Superintendent Baldwin. In general exterior outlines the building will be in conformity with the other units of the elementary school plant, which was started 15 years ago.

Mrs. Ritter was accompanied on her trip by Mrs. Will Mitchell. After the talk refreshments were served by Mrs. George Veeh and Mrs. Tom LeBar. The next meeting will be the first Wednesday in April.

WESTMINSTER

WESTMINSTER, March 6.—Several matters of interest were discussed by the Westminster Chamber of Commerce members at its regular monthly meeting this week. A letter from the Laguna Beach Library Building association was read by the local librarian, Mrs. H. B. Anderson. The letter asked the opinion of the local organization on an additional two cent tax additional to the present two cent tax levied for library funds, and which is proving insufficient for expenses at this time. The suggestion was favored by the local chamber.

Mrs. Anderson also gave a report on the local library work, over 13,000 books having gone out for the last fiscal year. There are about 400 borrowers, the average per borrower for the year being about 30 books. Patrons come from a number of adjoining communities as well as local people, one coming regularly from Hynes to secure the use of the local library.

Prof. Jas. M. Monroe, local representative to the Associated Chambers of Orange county, gave a report on the Costa Mesa meeting last week. The suggestion was made and carried that the Westminster Chamber of Commerce invite the Associated members as their guests at a future date.

Mr. and Mrs. Joe Edward motored to Los Angeles Tuesday.

As the birthday anniversaries of Dale and Don Robert Walker fall within the month, they were given a birthday party at the family home, the parents, Mr. and Mrs. Robert Walker, and their brother, Chester Walker, arriving for the winter lake and outdoor games of baseball, football, basketball and miniature golf.

Those at the party were Harvey Arnett, Dale Hell, Charles and Harry Lee Schmidt, of Midway City; Buddy Knox, Alvin Smith, James and Paul Pugh, Alfred and Alvin Montgomery, Johnny and Harold Montgomery and the two honor guests, Dale and Don Walker.

NEW BOOKS IN PUBLIC LIBRARY

BY VERA RAMSEY
From several hundred manuscripts submitted in competition for "The Francis Bacon Award for Humanizing of Knowledge" the jury of award and the advisory council of scientific specialists have chosen Bernard Jaffe's "Crucibles: The Lives and Achievements of the Great Chemists," as the most meritorious piece of writing aiming to humanize a given branch of knowledge.

Through these pages pass in review many great chemists of the past and present. Trevisan we find looking for gold in a dunghill. Paracelsus is the one who threw the Galenic writings into the flames. We see Becher, that glorious faker and fiery prestidigitator, whose phlogiston theory was to addle the brains of scientists for 200 years. Priestley fed oxygen to mice and wrested the secrets of the air from a glass bottle and a piece of heated wire. There is Cavendish, millionaire, misanthrope and hydromagician. Lavoisier, French aristocrat and a victim of the French terror finally solved the nature of burning. Dalton, the Quaker, built the smallest of worlds. The new language of chemistry was evolved by Berzelius. The quiet Avogadro enunciated a world shaking chemical law. Woeher made an organic substance out of the liquids and vapors of his test tube and retort. The hairy Siberian, Mendeleeff, prophesied the elements and gave us the final blue prints of the structure of the world. Arrhenius led the Ionians in their fight for the recognition of the ion. The Curies isolated a grain of a magic substance from a mountain of ore. Thomson and his disciples analyzed the invisible atom and photographed, isolated and weighed the electrons. A road map of the 82 elements of the universe was given to the world by Moseley. Langmuir threw open the window that made us see the dance of the

electrons and Prince de Broglie found that the stuff of matter is but a wave.

There biographies of men who have made the history of chemistry are brilliantly written, full of interesting personalities, and with the necessary scientific explanation deftly worked in with as few repellent terms as possible.

Napoleon Bonaparte said, "I have known only one really perfect traitor, Fouché." In "Joseph Fouché, The Portrait of a Politician," Stefan Zweig says, "He is the most remarkable politician the world has ever known." By way of proof he offers this brilliant and fascinating biography of the "ambler-in-chief at the great roulette board of human destiny."

Against the flaming background of the French Revolution we see Fouché, hitherto unknown, a "semi-priest," take his seat as a member of the dreaded national convention of France. When the people cry for the blood of the aristocrats he proceeds to Lyons, which has risen against the revolutionists, and plunges into an orgy of murder and blasphemy. When the people turn to moderation he repudiates his former companions, helps to speed Robespierre to the guillotine, and becomes the most moderate of moderates. His rise is meteoric, his fall equally so. Suddenly Citizen Fouché sinks into obscure poverty, earning his crust of bread by petty spying, even at one time, by becoming a swineherd.

Then in the next era Fouché rises again to new and greater heights as minister of police to Napoleon. Not only does he spy out Napoleon's enemies, but he even uses Josephine to spy on the emperor himself. Joseph Fouché, the man who killed aristocrats and tended swine, finally becomes Duke of Otranto, millionaire, aristocrat, master-spy, and super-blackguard.

From the pages of this volume emerge not only Fouché but some of the great figures of history: Napoleon, Robespierre, Louis XVIII, Talleyrand, Lafayette, and others. To read it is to gain knowledge of 60 of the most volcanic years the world has known. Hawaii! The enchantment of

tropic days and nights—the boom of distant surf breaking in white surrender on black lava sand—breases—liquid sunshine drenching woven grass roofs of native villages—heavy perfumes of night blooming flowers—the wanton, beautiful, swift curves of native girls dancing the hula by the light of flaming torches—in these and a thousand other beautiful and exotic pictures is snared in the pages of "Hula Moons" by Don Blanding, the fleeting essence of romantic and colorful Hawaii.

Caught here in bold, vivid prose and richly illustrated by interpretive drawings this lovely paradise of the Pacific stands forth in the full beauty of its color and form. "Hula Moons" is neither a history, a social treatise, nor a guide book, though it may tell you indirectly more than many books specifically written on those subjects. Rather it is a gay, animated series of impressions and rollicking adventures, of personal experiences, and firsthand observations in these magic islands. Vagabond, poet and painter, Don Blanding has touched every phase of Hawaiian life, and has interpreted for us its glamour and allurements, paths of her people, their majestic strength, and their unheroic follies.

"Hula Moons" is a convincing book. It convinces one that living is a delightful adventure in Hawaii. Filled with all the pagan loveliness, the unrivaled natural beauty, the humor and charm and enticing allurements of her strangely mixed population and picturesque land, this is a most authoritative, animated and honest presentation of Hawaii.

Other new books in the library are:

Babson, Roger W.—Easy Street. Beard, Miriam—Realism in Romantic Japan. Bradley, J. H.—Parade of the Living. Brown, J. M.—Upstage. Chapman, F. M.—My Tropical Air Castle. Cherrie, G. K.—Dark Trails. Craig, Gordon—Henry Irving. Cross, W. L.—Four Contemporary Novelists.

Ellis, Havelock—Fountain of Life. Hutchinson, A. S. M.—Book of Simon. McBride, R. M.—Romantic Czechoslovakia. Marie, Grand Duchess of Russia—Education of a Princess. Pfeffer, Nathaniel—China. Powys, J. C.—Meaning of Culture. Tobey, J. A.—Riders of the Plagues.

TUSTIN W. C. T. U. ARRANGES LUNCHEON

TUSTIN, March 6.—Interesting plans for a pot luck luncheon to be held April 2 in the banquet room of the Presbyterian church were discussed at yesterday's business session of the Tustin W. C. T. U., which was held in the church parlor. The president, Mrs. Finley, presided at the meeting.

Facts concerning the "Polyglot petition," the first world wide proclamation against the liquor traffic which was written by Frances E. Willard in 1884 and endorsed by more than 7,500,000 people from more than 50 countries, were given in an enlightening talk by Mrs. J. O. Preble.

Other equally interesting papers read included "The Light Line Union," by Miss Florence Stone; "Intemperance in England," by Mrs. Elizabeth Utt; "The White Ribboners in Japan," by Mrs. Althea Shiffner, and "The Bible in the Public Schools," given by Mrs. Sarah Brown.

Members present were Mesdames Helen Finley, president; Ruth Walker, Althea Shiffner, Kate C. Ebel, Mollie Smith, Genevieve Whitney, Esther Suddaby, Elizabeth Utt, Effie M. Crawford, Jessie Robb, Elizabeth Miller, Sarah Brown, Lorena Kyle, J. O. Preble, Mabel A. Hazen, Edna Smith and Miss Florence Stone.

The Novelty Boys Hawaiian Trio and Ed Rogers, baritone, will be featured on an hour's program from 7:30 to 8:30 p. m. The broadcast will be sponsored by R. A. Lacy Furniture company, 506 North

Broadway, and H. R. Trott, watch and clock specialist. Wayne Huffman's Hawaiians will entertain from 9:15 to 10 p. m. and from 9 to 9:15 p. m. Laurie and Larry will be on the air, with vocal duets. This is a new feature for KREG and promises to provide good entertainment.

From 6 to 6:45 p. m. the Shoppers' Guide, with music, will be broadcast and from 6:45 to 7 p. m. news of the day will be on the air.

4-H CLUBS WILL PRESENT PROGRAM

Music by the United States Marine band and talks on 4-H club work will be broadcast tomorrow over KFI from 9:30 to 10:30 a. m., according to an announcement by Assistant Farm Advisor E. E. Eastman.

The band will open the program with "Stars and Stripes Forever." Club leaders from various points throughout the country will be heard in talks on 4-H club work. Dr. C. B. Smith, chief, in the office of co-operative extension work of the Department of Agriculture, will talk on "My Philosophy of 4-H Club Work."

Music from Germany and Austria will be discussed by R. A. Turner and played by the band.

NOVELTY BOYS, ED ROGERS ON RADIO PROGRAM

The Novelty Boys Hawaiian Trio, presenting a group of harmonious and popular selections will be on the air again tonight. On the same program Ed Rogers, baritone, will be heard in an equally appealing group of numbers.

The entertainment will be broadcast from 7:30 to 8:30 p. m. and will be sponsored by the Lacy Furniture store, 506 North Broadway, and H. R. Trott, of the watch and clock department.

The Lacy and Trott program is a daily one and on each broadcast an announcement of interest to Orange county shoppers is made. The sponsors have announced that they will give away several valuable articles which are on display in the window of the Lacy store.

Something novel and entertaining is presented each night on this program. Variety has been its highlight and tonight's program will carry out this theme.

Comic Baseball Act Planned As Frolic Feature

Another feature of tomorrow night's KREG-Fox West Coast theaters frolic was announced today. It will be the comedy team of Lane and Harper, appearing on the Fox West Coast theater stage in addition to its appearance over KREG. The frolic will be on the air from 10:30 p. m. to midnight.

Lane and Harper will present a side splitting baseball stunt, with plenty of action and wit. Already it has been announced that Bill Desmond, well known screen and vaudeville actor, will take part in the frolic, presenting his act entitled "The Dude Bandit."

\$1200 Secured in Scouts' Campaign

ANAHEIM, March 6.—According to a report made by Evan Alsip, general chairman of the boy scout financial drive in Anaheim, \$1200 has been secured during the first week of the drive. The quota for this year is \$2500. Last year a total of \$1360 was subscribed.

PLAN ALL REQUEST RADIO BROADCAST

The popularity of request programs has been responsible for the choice of a broadcast which will be heard from 7 to 7:30 p. m. today over KREG. The Peggy Shoppe, 304 West Fourth street, will sponsor the broadcast.

Calling for a request is like picking your favorite music out of the air. Call up KREG and ask for your special selection on this program.

These shoes are a very great step forward in the scientific construction of shoes for children. Daughter Is Healthy Now

"My thirteen-year-old daughter Maxine was troubled with backache and pain when she came into womanhood. I knew Lydia E. Pinkham's Vegetable Compound would help her because I used to take it myself at her age. Now she does not have to stay home from school and her color is good, she eats well and does not complain of being tired. We are recommending the Vegetable Compound to other school girls who need it. You may publish this letter."—Mrs. Floyd Bacher, R. 2, Gridley, Kansas.

CUSTOM LASTS ARE DEMANDED IN SHOES NOW

It's back to the custom last—the last that has been with us off and on for a number of years, but never developed to the degree as it has been in the present showing of men's footwear for spring.

Originally a British shoe maker's idea, this custom last has become truly Americanized and may now be found in every grade of footwear, ranging from the lowest to the highest prices.

This information has been revealed in a review of the footwear presented at the national footwear convention held during the mid-winter. Row after row of footwear showed that the custom last—probably one of the dressiest and smartest creations—is here to stay for a season or two.

Lots of Color Shown

But probably more startling news may be found in the endeavor of the shoe manufacturers to dress up man's feet in colors. Heretofore colored footwear or combinations of color was limited to the summer months, but if the propaganda bears fruit let's all look for a more colorful spring than ever. In other words we should wear color from spring through summer and until fall, if the makers drive is a successful one.

Such combinations as blacks and whites, browns and whites, and other two-toned effects are being shown in greater number than at any time in footwear history. This is probably the continuation of their popularity in the Florida resorts last winter.

Combination of Leathers

Then, too, there will be white buckskins and most interesting combinations of suedes and calfskins. And if the ensemble idea is completely carried out Mr. Man promises to be a gay old "bird" this season.

As for the other colors browns will be given a popular call, but the tones will be deeper than in the past. In other seasons the range ran from lemon to the darkest russet tones, but the lighter shades are all right for a while, then become spotted and are, of course, harder to keep clean.

Wing Tips in Comeback

Another interesting style will be the wing tip toe in both blacks and browns. This style has been with us for several years, now and then drops out for a season, then stages a comeback. The custom last, of course, adapts itself to this style most interestingly.

The jazz model is practically back in the discard. This one of style, which saw its inception shortly after the war, has gradually faded from the picture and now becomes a rarity.

As for the formal wear the patent leather pump which has been the standby for many, many years, has been declared passe. Of course, this style isn't completely gone, but in its place the dull black calfskin will be the vogue, with medium or narrow lasts.

Record Sports Season

Shoe dealers are pointing to a record sports wear season. And they've prepared for it as never before, with greater varieties and earliest presentations than in any previous year.

Noticeable in these sports shoes are sharp contrasts and monotone effects. These are employed in wing tip and quarter types of footwear. The tips, according to a review of this footwear, swing lower and narrower toward the quarter line, giving the shoe a much more pleasing effect than in the past.

But outstanding, too, are two toned tans and brown combinations in the new full ball and toe last. French toes are shown to some extent, but, of course, will be merely an also ran when stacked up against its English rival, the custom last.

Formal Evening Wedding Favored

And have a formal evening wedding . . . and wear a long, sheathed lace gown that will make you look like a story-book Princess. Or be quite sophisticated in trailing white satin, with long, tight mousquetaire sleeves, and wear a little tricornie with yards and yards of veil sweeping behind you. You'll look too beautiful for words, and your wedding picture will be something to be proud of. And after you take off your veil, slip into a little bolero jacket, with elbow sleeves banded in white fox, or ermine—which will make a perfect evening ensemble for the whole spring and summer season.

Late News From Orange And Nearby Towns

CAMPAIGN FOR ARMY FUND TO BEGIN MONDAY

ORANGE, March 6.—Problems which are confronted in the work of the Salvation Army were discussed yesterday by Envoy B. D. Rae, field representative of the Orange Belt division of the organization, who is opening headquarters here at 125 East Chapman avenue for a \$1500 drive, to be opened Monday.

Rae declared yesterday that in the Santa Ana-Orange district, there had been an increase in the number of men helped since September.

In September, he said, meals had been supplied 155 men, beds for 112 and 19 families had been helped. In October, meals were given to 531 men, beds to 204 and 18 families helped. In November, meals were given 1,962, beds, 838, and families helped numbered 60.

In December meals were given to 1,830, beds to 814, and 11 families were assisted. Figures for February have not as yet been compiled, Rae said, but in January meals given out were 2,534, beds given to 515 and four families aided. Thus from 155 men given meals in September the number has increased to 2,534 in a period of five months. The Elks club, service clubs and other organizations are assisting in the drive.

More than 1200 letters have been sent out by Envoy Rae in beginning the work.

According to the social worker, more than 50 per cent of the men helped have been under 25 years of age. Employment has been found for 456 persons in the Santa Ana-Orange district since September, Rae said.

The committee appointed by the Elks to assist in the drive is headed by A. R. Todhunter and includes George M. Bartley, Charles D. Foster, John V. Hanson and H. J. Snow.

School Principal Guest at Banquet; Tells of Journey

ORANGE, March 6.—A. Haven Smith, principal of the Orange union high school, was greeted on his return from Detroit this week with a dinner party given in the school cafeteria by members of the faculty. The plans for the dinner were made by Mrs. Vernon Shippee and about 50 were present.

The principal gave an interesting account of his trip east and he presented the high lights of the superintendents' convention in the Michigan city. When he stopped in Santa Fe, Smith visited several places of historic interest, and he brought back with him a quantity of pottery which he exhibited to the guests at the dinner. He also told of hearing Eyrd speak on his trip to the South Pole and was fortunate in obtaining a seat when 15,000 persons gathered to hear the explorer, when there was room in the auditorium for but 5000.

SIREN SILENT FOR 71 DAYS IN ORANGE

ORANGE, March 6.—Not once since December 23 has the siren on the Orange fire trucks sounded, making a period of 71 fireless days in the city. CONDITIONS IN CHINA RELATED BY MISSIONARY

ORANGE, March 6.—Miss Sarah Bosworth, returned missionary from China, spoke yesterday to members of the Women's Foreign Missionary society of the First Methodist church on early missions in that country.

Robert Morrison was the first Methodist missionary sent to China, going in 1847, shortly after one of the first missions had been established there by the Congregationalists, the speaker said.

Miss Bosworth said that previous to this time, missionaries were not allowed in China and the pioneers of the group were confronted with a voyage which took five months which now is made in three weeks' time. The first missionaries, she said, were restricted as to their residence and the Morrisons lived on an island in a river near Foo Chow. The island often being flooded in time of high water and they were obliged, as were all of the early mission workers, to live in Chinese houses and use the housekeeping methods of that country.

The first church was dedicated in China in 1856 without a single member and the first member was received in the church 10 years later, Miss Bosworth said. The speaker called attention to a recent book, "The Changing Chinese," which she said was a most authentic history of the modern progressive movement in the Orient written by E. A. Ross of the University of Wisconsin from a non-religious standpoint.

History is now being made in China at aviation speed, said the returned missionary, who related how the Bridge of a Thousand Ages, which has stood near Foo Chow for centuries, is being replaced by a modern structure.

Letters from Miss Juliet Johnson were read by Mrs. Carrie Riddle and a letter from Miss Ellen Suffer was read by her mother, Mrs. W. G. Suffer. Both writers are missionaries in China.

The devotion was in charge of Mrs. Suffer and a duet was sung by the Rev. and Mrs. W. B. Cole and a Founder's day missionary song by Miss Elsie Parsons and Mrs. Clara Allen.

The program was given to observe Founders' day in mission work.

1-STORY BRICK BUILDING FOR SITE AT BEACH

NEWPORT BEACH, March 6.—The first class A building in the block on the east side of Main street between Central avenue and the ocean front is now in process of construction.

It is being built by W. D. Bowman, Santa Ana contractor, for Mrs. Lucy Travilla, of Los Angeles, owner of the property. It will be of brick and concrete, one-story for the present, but capable of being added to, with 30 feet of frontage on Main street.

The old building on the property, just torn down, was occupied

by a shooting gallery and a lunch counter. This is the third building erected within two years which will materially improve Main street, the first street to be built up in the early beach resort days and still in the business and amusement center of Balboa.

Two years ago a fine building was erected by Mr. and Mrs. Fred Storey, at the northeast corner of Main and Central. Last spring the \$100,000 structure for Walker brothers and Hamann was completed on Main and the ocean front. It contains the Balboa inn, a drug store and other stores.

Another notable improvement is being made to the W. L. Jordan block at Central and Washington. That part of the building east of Jordan's real estate offices is being rebuilt and will house a large fruit and vegetable store, to be run by A. L. and Morris Levin. It is announced.

TEACHES SWIMMING

KARLSRUHE, Germany. —(INS)—This city has engaged instructors in swimming and is now giving free swimming lessons in all the municipal baths. The lessons include also all kinds of diving, rescue work and fancy swimming. The innovation has proved especially popular with women, who constitute about 80 per cent of the classes.

WINTERSBURG

WINTERSBURG, March 6.—Mr. and Mrs. Mike Adams were surprised one evening this week upon returning home from Midway City, where they had been visiting friends, to find a long hose attached to their gas tank, evidently left by a gasoline thief.

The missionary collection last Sunday, which was observed as the annual missionary day for the local church, totaled \$37.75. Special numbers by the church choir were rendered in connection with the missionary talk given by Mrs. Chamberlin.

A cabinet meeting of the Wintersburg Methodist Epworth league was held with many subjects of interest coming up for discussion. It was announced that the entire pledge of the society is now paid, almost four months in advance of the date required for its payment.

The Epworth league convention which is slated for three days, was discussed and a large representation from the local society is desired. The convention convenes at Hemet. An expense fund for use of delegates was started at the meeting, extra collections to be taken at each meeting for this fund.

For March 20, the local league plans a dinner and a theater party. Roy Wentzel, chairman of the fourth, or entertainment department, is in charge of arrangements.

The regular monthly missionary meeting for Wintersburg will be held next Wednesday and each member is expected to earn a dollar to go to the missionary cause and at the meeting tell the story of how she earned it.

Mrs. Lily Shafer Moore and Mrs. Buck represented the Wintersburg Missionary society at the conference held at the First Methodist church in Los Angeles Tuesday.

The monthly report of the librarian of the Wintersburg branch library, Miss Geraldine Gardner, gives for the past month a total of 470 books and 25 magazines loaned. There were 54 new books brought to the library during the month. The reading of non-fiction books is gaining in popularity here, according to Miss Gardner.

The new curtains which the Ladies' Aid society furnished and made for the library, are now up.

Meeting with Mrs. Charles Wentzel, the members of the Wintersburg workers society completed one comfort and made blocks for another besides enjoying a delightful social afternoon together. Mrs. Wentzel served ice cream and cake, the refreshments being carried out in green and white, reminding of St. Patrick's day. The next meeting of the society is announced for the home of Mrs. Philip Davis instead of Mrs. Aleck Cameron's home.

The women present included Mrs. Hodgins, Mrs. Max Cowling, Mrs. Cowling sr., Mrs. Sargent, Mrs. George Pysden, Mrs. John Farnsworth, Mrs. Frank Lantz, Mrs. Maxey, Mrs. Brewster, Mrs.

Bradshaw, Mrs. Zine Crane, Mrs. Forest Hudson, Mrs. G. M. Robinson, Mrs. Claude Salsbury, Mrs. Perle Elliott and Mrs. Charles Wentzel.

The Wintersburg Ladies' Aid put in a successful day working on comforters at the church hall, where 25 gathered to assist in the work. The material for three more comforters is on hand and it is the plan of the society to sell some of them.

Over \$8 has been turned in from the teas given to aid the fund for food for the needy. A sewing machine is being purchased by the Aid society, which is also furnishing a new ironing board for the local parsonage.

Refreshments were voted out for Ladies' Aid meetings, the amount saved in this manner to go toward the fund for the needy.

The junior department of the local Methodist church is on March 15, putting on a Home Missionary play at the church, taking the hour of the regular evening service. "America for the Americans" is the name of the play. About 15 are taking part in the entertainment and Mrs. W. A. Matson is in charge of the program.

Local friends will be glad to learn that Mr. Olson, who has been a patient at St. Joseph's hospital since the beginning of his illness, is now convalescing satisfactorily following an operation performed to remedy the trouble.

Miss Enid Eyre, who left the past week for San Francisco, making the trip on the "Harvard" from Wilmington, in company with a friend, Miss Nina Halstead, who with Miss Eyre has been with the telephone company in Santa Ana, is enjoying a delightful time in the bay city.

Mr. Whitte is past patron of the Court of Amaranth at Alhambra.

RUIZ LOSES, GETS DRAW

Compton Trims Dons, 89-40

DURBIN 'FIND' IN TWO-MILE; GILBERT STARS

BY "SKY" DUNLAP

Flashing unexpected strength in certain events but still lacking enough men to make a creditable showing in dual meets, the Santa Ana junior college track team took its second successive dual meet trimming yesterday on Poly field, this time to the powerful Compton Tartars by a 89 to 40 score.

The sensation of the afternoon was the unexpected and stellar two-mile race that Bob Durbin won for Santa Ana. The little distance man from Orange was formerly a half miler but running his first eight-lap grind against Compton, won by 50 yards in 10 minutes, 38 seconds after leading the first six laps. He passed four Compton men in the final stages of the race.

Gilbert High Point Man

Doyle Gilbert was again high point man for Santa Ana by duplicating his feat of last week of winning the broad jump and tying for second in the pole vault. Before the Long Beach meet a week ago, Gilbert had never cleared 10 feet 6 inches but vaulted 11 feet for a tie for second.

Against Compton, he went 11 feet 6 inches. He threatened to keep climbing. In the pit event, he broadjumped 21 feet, 9 inches to win easily.

Melvin Beatty showed his 1930 form in the javelin by tossing the spear 171 feet, 1 1/2 inches to beat Von Breyman, Compton's ace. Beatty holds the college record of 175 feet 4 inches and is being touted to win the conference event this year.

The high hurdles proved to be one of the most thrilling races of the day, with Don Dresser of Santa Ana winning by a nose in 16.1 seconds. Dresser is improving with every start. Coach Cook thinks he will be down under 16 seconds soon. In the low sticks, Bill Danley pulled a tendon and had to drop but Clarence Preston nabbed a third for the Dons.

Jacques Jumps Six Feet

Art Jacques was the other first place winner with a hop of 6 feet in the high jump. Henry Lance tied for second in this event while Ellwood Lindley was barely nosed out of the scoring.

Captain Tom Donahue took another second in his favorite race, the mile, while chasing Jimmy Lawrence to the tape in 4 minutes 40 2-5 seconds. Ervin Watkins, premier Don half-miler, likewise came in second.

Compton's famous quarter-mile trio of Courtney, Tater and Kelly came in one-two-three with Lee Dresser, George Blewitt and Warren Schutz of Santa Ana trailing. Dresser has run his last race for the Dons. He will enroll at Oregon State next week. Blewitt promises to develop into Cook's best 440 man while Schutz is rapidly coming into his 1930 form.

Howard McGinnis took a surprise third in the discus to complete the scoring for Santa Ana. Erich Reinert, a three-event weight man, was

NEW BASEBALL FAILURE. SAY BIG LEAGUERS

BY COPELAND C. BURG (I. N. S. Sports Writer)

NEW YORK, March 6.—The new baseball appeared today to be a little bit like a policeman in a speakeasy—supposed to be something but isn't.

Those great big seams they sewed on the new ball in order to give the pitchers a crab-like hold may turn out to have direct "Hack" Wilson ancestry and prove just the reverse of what the doctor ordered.

Reports from the training camp raise the possibility that when the ball comes crashing along if the batsman gets the stick on it the seams have a tendency to grab hold and away she goes. It is pointed out that an imbedded stitching on the ball had the opposite effect and unless the ball was soundly poked it slid off into a pop fly or foul. Anyway, the boys playing bridge and golf down south generally have not been able to find out just why their batting averages are going to be any lower than usual.

Those Brooklyn Robins are sticking out their beaks and whacking the new ball like a bevy of blacksmiths.

In a game Wednesday the regulars made the rafters ring with 32 hits, including nine homers, and yesterday the regulars kicked up some more waves down at Clearwater, Fla., getting eight hits, with the irregular snagging the same.

"Lefty" O'Doul got a home and three singles in five times up. Of course the pitching was not of mid-season character but it could not have been as bad as some of the regular hurling of the Phillies, for instance.

Walter Johnson of the Washington Senators does not think the new ball is going to make any difference. "Gaby" Street of the Cardinals finds it will carry as far as the old one, although Red Bird pitchers say it is easier to curve and control.

The Giants have not been able to hit the new ball very effectively but they may do better when Pat Terry comes to town.

Jess Petty of the Cubs most likely doesn't care for the small pill. He got touched for the small singles, a double and a homer in the finish of a practice tilt yesterday at the Bruins' Catalina island camp.

Huskies And Bears Await Hoop Battle

SEATTLE, March 6.—(UP)—Champions of their respective divisions, the California and Washington basketball teams will meet here tonight in the first of a series to decide the Pacific Coast conference title.

The California squad arrived here last night, confident of winning two straight and ending the argument tomorrow night. Washington was equally confident of victory. The Huskies were regarded as underdogs, however, due to exceptional strength shown by the Bears this season, and to the fact that Washington slumped near the end of the regular schedule.

Washington's starting lineup probably will be without "Short" West, diminutive and stellar guard. He has been having considerable trouble with an injured leg, and his place may be taken by Ned Nelson.

FAIR CROWD AT REOPENING OF DELHI'S ARENA

Absence makes the heart grow fonder and so today Orange county sportdom had welcomed back to the fold one of its wayward offsprings—boxing—with a kiss and a slap on the back, as well as a few words of admonition.

Open for the first time since December, the Orange County Athletic club at Delhi played to a fair crowd last night. The house probably grossed in the neighborhood of \$600 despite a generous sprinkling of complimentary so Benny Whitman and Elmer Willson must have come out of the financial scrimmage with a few dimes.

Straight-jacketed in a snappy tuxedo, little Bennah, ex-referee, hustled about the place on all four's in his efforts to please one and all, and he did well enough. Everybody seemed satisfied. Even a "home-town" decision in the main event between "Fighting Joe" Ruiz and Howard Fritz, the latter an unadvised substitute for Danny Martin, failed to destroy the serenity of the occasion.

Burke Hears Fan Music

Referee Billy Burke, not often such an offender, must have had his ear attuned to the music of the fans when he presented Senior Joe with a draw. Fritz, colored, won all the way. He took the first five rounds in succession and was not far behind in the sixth and last period.

The windup followed the usual "opening night" hokey—introductions, speeches and opening of telegrams wishing the promoter success. One of the wires came from ex-promoter H. T. Foust, another from George Bancroft, the film player. During the pompous telegram ceremony a gallery was wanted to know whether the next wire would be from President Hoover.

Fritz outboxed Ruiz at will. Fans who often have seen the clever Ruiz make suckers out of slower moving opposition could hardly trust their optics as they watched the dusky Fritz prance in and out, punching four to Ruiz's one and keeping Joe away from him with his long reach.

Third Round Fritz's Best

The third was Fritz's big heat. He hooked Ruiz seven times in succession to the chin without taking a semblance of a blow in retaliation.

Ruiz made a strong finish while Fritz, apparently figuring he had the decision cinched, elected to play it safe in the last round. Imagine his embarrassment when Burke thought it was a draw.

The main go was fast and satisfactory but the semi-final was terrible. In it Tony Bevo decided Bobby James in six rounds of colorless mixing. James could take it but couldn't give it and had no business in there with a rough gent like Bevo.

The best bout of the evening was between old Paul Gomez and T. N. T. O'Hara.

Gomez Goes Bad

This was a deadly affair with Gomez finally going all like a light in the sixth after absorbing beacoup punishment and also dealing out plenty of the same ingredient. A stomach blow finished the veteran after being in the elag three times during the course of the engagement. Gomez was as game as a bulldog and just as tough.

Columbus Evans, a gentleman of deepest sepi, bludgeoned one Cy Byfield, substitute, into submission in the fifth. Byfield had Evans on the floor in the second but the ducky brought up his heavy artillery in the next two rounds and Burke stopped it.

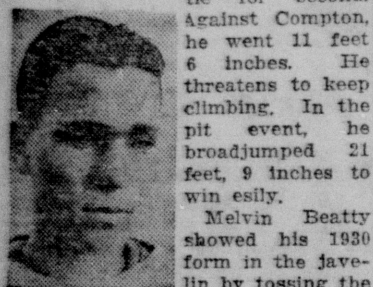

Peter Cardenas beat Freddie Hawkins and Cliff Burrier kayeed Manuel Buno in the third round, the last one being an extra bout—just for old time's sake.

Next Thursday it will be Augie De Mille vs. Tony Moreno

BRUSHING UP SPORTS - - - - - By LAUFER

FRED MARBERRY almost undid his great work of 1924 in the final series with St. Louis late in September. After a wild slugfest, Washington went into the last half of the ninth, leading 15-14. Victory would practically cinch the pennant. Marberry, as relief pitcher, allowed St. Louis to fill the bases with one out. In such a crisis the team in the field hopes the ball will be hit to the pitcher. That makes a perfect double play setting. The batter obliged by hitting sharply to Marberry, who had a cinch double play by merely tossing the ball to the catcher. Instead, he became flustered, started to throw to first, then changed his mind and heaved the ball to second, with no one covering. The ball rolled into center field, and two runs, enough to beat Washington, crossed the plate. This boner for a time threatened to cost the Nats a pennant.

GRIFFITHS AND KING LEVINSKY IN GO TONIGHT

CHICAGO, March 6.—Chicago's two foremost heavyweights, "Tuffy" Griffiths and King Levinsky, will meet in a 10-round bout at the Chicago stadium tonight which is expected to attract a crowd of 19,000 and gate receipts of \$65,000.

It will be the first fight between two prominent Chicago heavyweights since boxing was legalized in Illinois.

There is an outside chance that the winner will figure prominently in the heavyweight scramble this summer. Matchmaker Nate Lewis is endeavoring to pair the winner with Tommy Loughran here April 12 and then send the ultimate victor against Jack Sharkey in June.

Griffiths continued the favorite today, generally at 9-5 but as high as 2-1 in some quarters. Levinsky's supporters hoped for a knock-out and asked 1-3 on that ticket.

Another of those strange financial arrangements is attached to this match. Levinsky's contract calls for 60 per cent of the net receipts and he will pay Griffiths \$25,000 out of his end. Figuring on the basis of a \$65,000 house Levinsky can hope to get only about \$13,000.

As Griffiths always has been known as "a sucker for a right hand", many believe that he will wind up sniffling the resin tonight. For Levinsky, the clumsy clown, can't do anything but hit with his right mitt. His most recent victim was Jack Gagnon of Boston, who once knocked out Griffiths.

FAN HYSTERIA BOOSTS SALARY OF WRESTLERS

By LES CONKLIN (I. N. S. Sports Writer)

NEW YORK, March 6.—How much money does a wrestler make a year?

In view of the wrestling hysteria that has gripped New York and other cities in the past three months, the writer put this question to leading mat promoters and wrestlers today. The gist of their replies was as follows:

Gus Sonnenberg, the Dartmouth alumnus who revolutionized the sport with his flying tackle, is the leading money-maker of the modern crop of rappers. He earned \$700,000 in 1929 and 1930. "Gus the Goat," who lost his title to Ed (Don) George last December, has just started an attempted comeback and will tackle Pat McGill, of Omaha, here next Wednesday.

George Salts Away \$100,000

George already has salted away the tidy sum of \$100,000 since dethroning Sonnenberg. He figures to earn at least \$300,000 this year.

Jim London, rival claimant to the title, has collected \$60,000 since the first of the year, and expects to increase this total to between \$250,000 and \$300,000 by next Christmas. He has averaged at least \$75,000 annually for the past 10 years, according to Promoter Jack Curley.

Jim McMillen, beaten twice by London, thinks he will gross \$40,000 in 1931, or double his 1930 earnings.

Jack Herman, local mat impresario who has been promoting wrestling bouts since the gay nineties, declares that Joe Stecher, three-time champion, is worth a million dollars today and that Ed (Strangler) Lewis, another former champ, could cash in his holdings for \$750,000. Both are still going strong.

So much for the headlines. The members of the second flight of contenders, according to Herman, average about \$15,000 a year.

Savoldi Should Prosper

"In this group I would class wrestlers like Stanley Stasiak, Pat McGill, Nick Lutze, Jack Sherry, Carl Pojello, Count Zarynoff, Hans Steinkne and Joe Malciewicz," said Herman.

"This fellow Joe Savoldi, the former Notre Dame football star, is becoming a great drawing card. I wouldn't be surprised to see him make \$250,000 in the next two years."

Herman explained that a wrestler appearing in preliminary bouts might struggle along barely making expenses for a few years, and then break into the big money.

Work on Percentage

"All wrestlers work on a percentage basis," he said. "Between 50 and 60 per cent of the gate is divided between them. The principals divide from 25 to 35 per cent of the gate. The semi-finalists each get a five per cent cut, and the remaining 20 per cent of the gate is split among the other performers."

"The best wrestling cities are Los Angeles, Boston, New York, Chicago, Denver, Kansas City, St. Louis, Buffalo, Montreal and Toronto. An average gate is \$10,000, but a championship match may net from \$50,000 to \$80,000."

Dempsey to Call Paolino-Kennedy Contest Tuesday

LOS ANGELES, March 6.—Jack Dempsey will be the third man in the ring when Paolino Uzcudun, Basque woodchopper, and Les Kennedy, Long Beach longshoreman, meet here Tuesday night. Promoter Jack Doyle announced today.

CARNERA'S WIN OVER MALONEY BOOED BY FANS

BY JOE COPPS (United Press Staff Correspondent)

MIAMI, Fla., March 6.—Primo Carnera, Italy's biggest if not most handsome gift to the boxing business, still was in the heavyweight championship picture today as a result of his 10-round decision over Jimmy Maloney, second rate Boston veteran, at Madison Square Garden arena here last night.

Judging by the boos which greeted Referee "Slim" McClelland's decision, Carnera never would have received the verdict had the spectators (all 18,000 of them) been allowed to vote. The big Italian was jeered from the minute the fight was over until he disappeared from view in his dressing room. Maloney, however, was cheered vociferously, and was borne to his dressing room on admirers' shoulders.

Carnera Finishes Fast

Many of those around the ring-side were of the opinion that McClelland was unduly influenced by Carnera's strong finish. The Italian, after a sluggish start, won the last three rounds. In the eighth frame he smacked Maloney with two resounding rights to the jaw, the most effective punches of the fight, and in the ninth and tenth drove Maloney to the ropes and got in several hard cracks to the chin.

Maloney was most effective in the early rounds when his jab and runaway tactics worked to perfection. His jabbing kept his heavier foe from coming in close where the difference in weight really counted and made Carnera miss more than half his shots.

Promoter in Red

According to the United Press scoresheet, Maloney won the second, third, sixth and seventh; Carnera the eighth, ninth and tenth, with the first, fourth and fifth even.

The weights were: Carnera 273-1-2, Maloney 199.

Promoter Frank Bruen said he expected the "gate" to be somewhere in the neighborhood of \$50,000. A \$50,000 gate means a substantial loss for Bruen in his first adventure as a solo promoter.

In the eighth round semi-final Maxie Rosenbloom, light heavyweight champion, slapped and cutted his way to a decision over Marty Gallagher, Washington, D. C., heavyweight. The champion weighed 182, Gallagher 202.

Garden Grove's Tracksters Win From Willard

Garden Grove grammar school proved more potent on the cinder-path than Frances Willard junior high school yesterday, the Pepper intermediates and seniors beating the North Main street eighth grade seniors and intermediates, 23-18 and 22-19, respectively.

Frances Willard had better high jumpers but were outclassed in the dashes and senior broad jump. Ida, Garden Grove's star dashman, ran 75 yards in 8.7 seconds. The Peppers won the intermediate relay by a small margin but forfeited the senior relay when one of their runners cut in on a Willard sprinter. The results:

Intermediate Events

75 yard dash—Koby (GG) first; Fujoka (GG) second; Blanchard (W) third. Time, 8.7 sec.

HART SECTION LEADS LATHROP INTERCLASS

Leading by six points, Miss Hart's eighth grade section came out ahead in the first day of inter-class track at Julia C. Lathrop junior high school yesterday, the scores being: Hart's section, 16; Adams section, 10; Reed's section, 6; Kline's section, 5. Scores of other sections ranged all the way from one to three points.

Yesterday's competition was in the intermediate division only so Hart's section has by no means put the meet on ice.

The scores follow:

Pole vault—Pegues first, 7 feet 8 inches; McCune second, 7 ft., 4 in.; Montejano third, 28 ft., 7 in.; Hilligass, fourth, 28 ft., 2 in.

TRAINING CAMP BRIEFS

Spring training may bring about several changes in the lineups of Pacific Coast league clubs.

An important move in this direction was uncovered today by Manager Nick Williams of the San Francisco Seals, now training at Monterey. Watching Clyde ("Tub") Perry, 220-pound pitcher who broke into the league last season, at work on them pond for the first time this year, Williams decided to try him in the outfield.

Perry, despite his bulk, pleased Williams with a display of speed and consequently the erstwhile hurler may find himself an outfielder. Williams' chief purpose is to develop Perry as a hitter, which he may do in view of Perry's .327 average last year while a pitcher. Also Williams has a standing staff of 11 pitchers.

Manager Ernie Johnson of the Seattle Indians is worrying less by reason of the performance of "Red" Berg, former Stanford athlete, who may meet Johnson's need for a fast man at shortstop.

A number of rookies will leave the Oakland Acon camp at the end of the week when President Ed O'Malley of the Phoenix club, Arizona State league, will arrive to complete arrangements for receiving the youngsters. The latest to join the Acon roster is Elbert Fisch, former Seattle southpaw.

The days of the Sacramento Senators at their Richmond Springs camp are numbered. The Solons will pack their bags Sunday and start on a tour to play 10 exhibition games.

Larry Woodall, former manager of the Portland Beavers, was named field captain by Headman Spencer Abbott. Pitcher Joe Bowman and Catcher John Fitzpatrick are new arrivals at the San Jose camp.

"Fuzzy" Hufft, outfielder, has signed a contract with the San Francisco Missions at Stockton.

An intra-squad game between the reds and grannies at the Angel camp in Los Angeles ended in a 1 to 1 tie. Bob Green tossed three scoreless innings for the grannies. Ray Jacobs got two doubles.

The Hollywood Shells are still basking in the sun at San Diego, taking daily workouts at Navy field.

The picture in connection is "Swanee River," featuring Grant Withers and Thelma Todd.

Mrs. Laws was speaker of the afternoon, at a session which featured election of officers and which followed a delightful luncheon. Table decorations were shamrock and white candytuft, and the rooms were gay with lovely flowers from the gardens of Mrs. M. J. Hammon and Mrs. W. C. McFarland, while a basket of delicate orchid blossoms, borne on stems three feet long, brought by Mrs. Staley, attracted much attention.

Mrs. Nellie Cline was in charge of the luncheon program, which consisted of a group of clever verses by Mrs. Cline, sung by Mrs. Cline, Mrs. W. D. Solesbee, Mrs. J. R. Wallace, Mrs. A. Pierotti, Mrs. Arthur Anderson, and Mrs. Ina Robinson, with Mrs. C. E. Halber at the piano.

Mrs. Staley presided at the business meeting at which the following officers for the coming year were elected: President, Mrs. Louis Jacobson; first vice president, Mrs. Leon Gilliam; second vice president, Mrs. T. Carmichael; critic, Mrs. Arthur Staley; directors, Mrs. Wallop and Mrs. Jacobson.

Mrs. Arthur Anderson reported on the Burbank tea, which was to have been held March 10 but owing to several other meetings on that date, it was voted to postpone it.

Mrs. Blackmer gave a Federation News report on the motion picture industry, and Mrs. Timmons reported the Monday meeting of the Booklovers section with Mrs. Tuffrey, with Mrs. Knight as leader. The next meeting will be held at the home of Mrs. J. D. Sturdevant with Mrs. Wallop as leader.

Miss Emily Cuff reported on the meeting of the garden section and announced that the next meeting would be held at Laguna Beach March 21, members meeting at the art gallery at 11 a. m., with a picnic luncheon to follow, and in the afternoon attending the annual garden contest of the Laguna Beach club. Convention Of Fraternity Men Opens Here Tomorrow

LIONS PROGRAM PRESENTED BY RADIO ARTISTS

Members of the Lions club, meeting for their regular weekly luncheon yesterday noon in Ketter's cafe, received with marked enthusiasm a program presented by talented local musicians.

Norman Sprowl, manager of the West Coast Fox theaters in Santa Ana, sponsored the program, which was arranged by his brother, Bob Sprowl, who is program director of KREG.

Lorene Croddy, well known musician who has charge of the children's hour over KREG, sang a group of two numbers accompanied on the piano by Duncan Harmon. The numbers she chose were "In the Garden of My Heart," by Ball, and "Trees," by Basbach.

Duncan Harmon, son of Mr. and Mrs. Marshall Harmon, played a group of popular selections on the piano. He played "Oh Lady Play Your Mandolin" and as an encore played a medley of popular songs. Duncan recently was "discovered" by Bob Sprowl and has been heard over KREG a great deal lately.

Dial Graham, of Costa Mesa, kept the members of the club tapping the floor to keep time with the music he produced on his banjo. He played the "St. Louis Blues" and "With You." Graham is scheduled to appear at the West Coast theater here on April 1, 2 and 3, Norman Sprowl said, in introducing him.

An unusual feature of the program was the rendition of several popular songs on a musical saw by Glenn Rayhawk, of Anaheim. He chose as his numbers "Tears" and "Lonesome Lover."

Bob Sprowl, tenor, sang two numbers for the gathering. His songs were "Imagine" and "Must Be True." Sprowl is well known in the community for his singing over KREG.

The Rev. Perry Schrock, first vice president of the club, presided over the meeting.

Carson Smith was program chairman of the day. The Rev. S. F. Hilgenfeld, a member of the Anaheim Lions club, was a guest at the luncheon.

HOUSES OFFICES FOR DOCTORS

LAGUNA RAISES LICENSE RATE FOR PLUMBERS

LAGUNA BEACH, March 6.—Consideration of bids on garbage hauling on contract, motion to purchase a disputed right of way to the beach, discussion of a committee report on amendments to the plumbing ordinance and instruction to have bid for improving of Ocean avenue-El Paseo district were the chief items of business before the city council Wednesday evening.

John Mesropian, Los Angeles; G. R. "Jake" Switzer, William Robinson and D. W. Tait, Joe Brown and William Baird were the bidders on hauling trash and garbage. All but the latter offered to supply equipment. Schedules of picking up garbage and trash were similar, though not the same. Offers ran from \$235 to \$350 a month for the service equipment is furnished by bidder. Bids were taken under consideration.

Motion to purchase a 10-foot right of way, long in dispute near Sugar Loaf in Arch Beach, was passed unanimously. The cost to the city is \$38.20, according to a letter from Harvey and Harvey, attorneys for the Laguna Beach Heights Improvement association, which had employed the attorneys and is paying the expenses of the suit. The latter is to quiet title. The property is owned by Mrs. Jennie Spencer.

Councilman George W. Wilson stood against Councilmen C. R. Clapp and Maurice B. McMillan and Mayor J. E. Bishop in the argument over proposed changes in the plumbing ordinance. Most of the dispute centers about the revision of the license fee from \$100 to \$25, a change opposed by the plumbers. In support of their desire for the present higher rate, their spokesman, Carl E. Benson, said that the license in all nearby communities is \$100 and that in order

to give adequate protection here it is necessary to meet this rate.

Benson gave as facts that there is one plumber to 300 population here, whereas in Santa Ana it is one to 3000. In the motion, which prevailed, City Attorney Leslie F. Kimmell was instructed to draw an ordinance making amendments in the ordinance. He was also instructed to draw an amendment reducing the license for electricians from \$25 to \$15.

By motion the position of plumbing inspector was declared vacant on March 15, at which time the council, according to a statement by Mayor Bishop, purposes joining the position with that of electrical and building inspector, now held by Floyd Case.

Delivery of the new fire engine is to be made soon, with a test to be made in National City March 15.

NEW BUILDING ERECTED HERE BY PHYSICIANS

Taking their cue from other Santa Ana physicians in moving out of the business district to quieter streets where parking facilities are more available, three Santa Ana professional men, Dr. Robert Currie, dentist, and Drs. R. P. Yeagle and H. G. Huffman this week are moving their offices from downtown Santa Ana to a new and strictly modern building at 215 South Main street.

The new building, said to be the latest in modern medical and dental offices, has just been completed and is ready for occupancy today. It was built at a cost of approximately \$27,000, and is owned by the three doctors, who will take possession today and tomorrow.

Dr. Currie, who for the past several years has had his offices in the Otis building at Fourth and Main streets, sought larger quarters due to an expansion in business and his desire like other professional men to get away from the downtown section of the city.

His new offices will contain six rooms, in which have been installed the latest in X-ray and laboratory machines, while his reception room is expected, when finished, to be one of the most beautiful in the city. Dr. Currie expects to be in his new quarters by Monday, he said.

The other 12 rooms in the building—there are a total of 20—will be divided between Dr. Yeagle and Dr. Huffman, both of whom expect to move in by the first of next week. Dr. Yeagle has already moved some of his equipment to the new location.

The latest devices in the aid to medical science, including expensive X-ray machines and other surgical equipment, has been installed, making the offices among the most modern in Southern California. Dr. Yeagle and Dr. Huffman will not have their offices together, however, it was stated.

The new building is of Italian architecture.

URGES SELECTION OF OFFICER WITH INTEREST OF MEXICANS AT HEART, FOR INTERPRETER

Request of the three superior court judges of Orange county, made Tuesday before the board of supervisors that that body endorse an act pending in the legislature creating the post of official county interpreter for Orange county at a regular salary, and suggestion by one of the judges that the board of supervisors make the appointment in event the position is created, has resulted in considerable discussion in some quarters, it was learned today.

Expressions of hope have been made by those interested in the matter and persons familiar with the importance of this post, including Mexican leaders, that the supervisors would take advantage of this opportunity, if it is presented, to select a man for the post who is deeply interested in the welfare of the Mexican people of the county and in arousing in them a deep respect for government and American institutions.

Charles Carrillo, who has acted in the past as court interpreter, is working on a per diem basis, which it is said does not provide a proper living wage.

Carrillo, as a result of an investigation undertaken by The Register late in the summer of 1929, after many complaints had been received from Mexicans in all parts of the county concerning his work, was faced with certain charges made before the board of supervisors, supported by many affidavits, and used the resultant publicity as the basis for a libel action against the paper. This suit was thrown out of court at the time of the trial, when 40 witnesses were present to substantiate the truth of the charges published, without presentation of any defense testimony whatsoever, thus resulting in a complete exoneration of The Register and its publisher for its stories on the charges based on affidavits of Mexicans who had been in contact with Carrillo in his capacity as interpreter.

The libel suit of Carrillo, which went to pieces in court at the conclusion of his side of the case, resulting in judgment for the defendants on the evidence that had been presented by the plaintiff, following a motion to this effect by defense attorneys, was based on articles which appeared in The Register in September and October of 1929, reporting the charges made by Mexicans and the investigation conducted before the board of supervisors.

These charges were: "that Carrillo sold his influence or allowed influence with the peace officers and courts of the county; extorted money from defendants on the promise to have cases against them dismissed; attempted to extort money from defendants released from jail on the statement that it was through his influence that the release was obtained; demanded and received money for an instrument on the pretense that it would aid an unqualified

There will be a banquet on Saturday night to be followed by a smoker and some entertainment. Breakfast will be served Sunday morning at the Santa Ana cafe and following it the second business meeting of the session will be held.

Perry declared that there are many problems confronting the organization and that discussion of these problems will be held at the business meetings.

Enjoys Oriental
Party Theme

The charming new home of Mrs. B. W. Spruance on North Ross street, lent itself admirably to the colorful oriental motif which Mrs. Spruance chose to emphasize yesterday at a smartly arranged little party luncheon given for a group of friends.

Transvaal daisies blossomed in the center of the small tables arranged for the serving of typically Chinese dishes, including chop suey, for which guests depended upon the use of chop sticks. The individual cups which formed a part of the place cards which later served as the decorative scheme, held the fan-talies.

Two tables were called into service for the bridge games, in which quaint Chinese snuff boxes, suitable for trinkets on the modern woman's dressing table, were awarded as prizes. Mrs. Cassius Paul and Mrs. M. Burr Wellington held first and second high scores and received the pretty gifts.

Van Drimlen, 3033 North Main street, whose marriage to Charles Read, son of Mrs. Mabel Read, 402 South Birch street, will be an even of April 11, was a charmingly arranged surprise shower given Wednesday night by Miss Sue Verburg and Mrs. Dee Cook in the home of the latter at 1016 North Olive street.

All details of the party were Oriental in effect, with graceful sprays of peach blossoms mingled with sweet peas in lacquer red, as the floral motif. Gay little Chinese figures adorned the tally cards for bridge and each card table had its individual dish of Chinese sweet meats. Prize awards were in harmony for to Mrs. Charles Cramer, scoring high, was presented a jewel case of Oriental workmanship, while a sugar and cream set in Chinese design was given to Miss Marian Gresham, holder of second high score.

Hostess Plans Party
As Surprise Gift
Shower

The fact that members of Meta Adelphon class of the First Christian Sunday school have been meeting each Thursday evening for rehearsals in preparation for the Easter Sunday services at the church, provided class members and their teacher, Mrs. Clyde Morrison, every necessary reason for a gathering last night, which proved complete surprise to Miss Veda Mitchell, a member of the group.

For Miss Mitchell, whose betrothal to Howard Frazee was recently announced, never dreamed that the meeting was anything but the usual practice affair, and was amazed to discover that it was a party with a merry game program, the daintiest of decorations and refreshments, and a shower of beautiful gifts, all planned in her honor.

Mr. and Mrs. Morrison have recently taken possession of their new Spanish home on Yuba street, and the guests were delighted at the opportunity to see the beautiful appointments. They were especially enthusiastic about the big fireplace in the living room, where a blazing fire added cheer to the scene.

An amusing guessing game in which articles connected with a wedding seemed hopelessly "pi-ed," had as its prize one of the finest of the hostess, Mrs. Morrison made her tables very inviting with appointments that harmonized with the fragrant free-las and rainbow hued sweet peas of her decorations. Following the refreshment course, and while Miss Mitchell was engaged in conversation with Mr. Morrison, her hostess arranged one large table with the packages brought by the guests, and then called her back to the room where this happy surprise awaited her.

The gifts, wrapped and tied in bright colors, were miscellaneous in nature, and were chosen with a view to their usefulness and beauty in the home which she and Mr. Frazee will establish after their April marriage.

Mrs. Morrison's hospitality was extended to the following Meta Adelphon members: the Misses Hazel Lee, Mildred Paul, Marguerite Thompson, Beulah Douglass, Marian Smith, Phyllis O'Connor, Elsie Hurd, Geneva Swenator, Frances Shaley, Ruth Spray, June Spray, Mrs. Esther Preston and Mrs. Lina Rosenbaum. In addition to her honoree, Miss Mitchell, and two special guests, Mrs. Charles F. Mitchell and Miss Eleanor Mitchell, mother and sister of the bride-elect.

Girl Reserve Mothers
Are Entertained at
Pretty Luncheon

One of the prettiest affairs of recent date connected with the activities of Santa Ana Girl Reserves, was the luncheon given in the Y. W. clubrooms, with the purpose of bringing the mothers of Girl Reserves into closer communication with their daughters' activities.

Mrs. Cassius Paul, chairman of the hostess committee, and Mrs. Earl Morris, chairman of the membership committee, arranged details of the luncheon and the program, enjoyed by some 25 guests. Luncheon was served in the dining room with the tables graced with colorful blossoms of the season.

During the afternoon, Mrs. C. F. Drake of Long Beach, chairman of the district committee, gave a detailed history of the Girl Reserve movement, and outlined some of the accomplishments of the members. Her survey of their activities was found most interesting to the assembled mothers, who were given a clearer idea of the value of the work than they perhaps had known before.

Her illuminating talk was followed by one by Miss Dorothy Cartwright, Santa Ana Girl Reserve secretary, who particularized on the local activities. Many questions asked by the mothers present served to bring out other points of interest.

The party was the first of a series of similar affairs which are to be presented from time to time during the spring months.

Evening of Bridge Is
Completed With
Gift Shower

That charming young bride, Mrs. George Horton, who was Miss Cleo West before her recent romantic marriage in Yuma, found herself the honoree at a pretty party last night, when her sisters, Mrs. Irene Williams and Miss Ethel West, invited a group of her friends to share a pleasant affair in the home of their parents, Mr. and Mrs. R. E. West, on West Edinger road.

The fluted petals of pink sweet peas made a lovely floral decoration, accenting the rose tones chosen by the hostesses for their color scheme. Tables were placed for bridge, and in the evening's contest, Miss Helen Manderscheid and Miss Elizabeth Roehm made first and second high scores, receiving the pretty prizes in their rose tulle and ribbon bows.

In serving the salad, sandwiches, ices and cake of their delectable supper menu, the hostesses replaced the card table covers with the daintiest of naper, and centered each table with a slender pink taper. They were assisted in serving and in all pleasant hostess duties, by their mother, Mrs. West.

In the meantime the array of packages brought in by the guests had been placed on a large table in the dining room, and thither the young people gathered after the refreshment hour, while Mrs. Horton opened each package in turn, to exclaim delightedly over the beautiful pieces of topaz crystal which rewarded her.

Mr. and Mrs. Horton were married on February 20 in Yuma, and have been honeymooning in the Southland, returning to this city only a few days ago. They are pleasantly established at 337 Beverly Place, where they are now at home to their friends.

Avoid Oils That Fatten

Have you seen the new spring dresses? If you haven't, you had better take a look, then go home and give your figure the once-over to be sure that you can wear their revealing lines. And do get weighed, if you haven't done so for some time.

Winter foods, so rich in energy and fat-making units, just wreck hips and waist lines, and before we know it we are wearing a nice, firm little rubber tire of fat where our waist line used to be. Now is the time to start doing something about it, and that "something" should not be reducing medicines—they are dangerous unless prescribed by your physician.

Rely on diet to bring your figure back to the size you want, and if you will supplement it with my "Reaching for the Stars" exercise, you can take off three pounds a week and feel just grand and glorious while doing it.

One of the moorasses to be met in a diet is the use of oil salad dressings; salad oils are FATS, worth 100 calories per tablespoonful. Fats you must stay away from if you want to compel your body to burn up that rubber tire around the old waist line, so-o-o-o, you must substitute for salad oil, a MINERAL oil.

There are two kinds of mineral oil, one made with an asphalt base, the other with a paraffin base. It is the latter you must buy for making mineral oil salad dressing. You can get it from your druggist by the gallon and at a cost of approximately \$2.50.

TODAY'S RECIPE

Salmon In Oil

1/4 cup olive oil
3/4 cup salad oil
1 cup vinegar
4 cloves of garlic
Salt and pepper
Few grains of cayenne
Firm slices of fresh fish in desired amount

The original recipe called for a full cup of olive oil but since olive oil is so high in price, we will use just enough to give it the olive oil flavor and substitute salad oil for the balance.

Order the fish early enough to let it stand for an hour in the seasoning mixture. Mix the oil, vinegar and cloves of garlic, well gashed to release flavor quite a bit of salt and pepper, and a pinch of cayenne. Turn two or three times and after an hour lift the fish out of the oil bath and cook it brown in a hot pan.

At the same time put the oil mixture to heat in another vessel (fish out the garlic) and after the slices of fish are cooked and nicely browned pour this hot liquid around them, cover and stand for five minutes before taking up the fish.

A small slice of salmon cooked in this fashion has calories amounting to a little more than 250. Salmon is rated as a "fat" fish.

Any of the less expensive kinds of fresh fish can be agreeably cooked after this method. It is especially good for the white meat, lean fish. Let me commend to

"For some years I have had a rough and pimply skin. I tried many kinds of skin lotions and creams, but none of them seemed to do any good. Now I always keep a jar on hand, and am glad to pass along a good word for Resinol."

Small Guest Group Entertained at Dinner

Adding charm to an informal little dinner party at which Mr. and Mrs. Carl C. Thrasher were hosts last night in their pretty North Broadway apartment, were the crystal, Spode and silver of the dinner service, much of which had been given them at their wedding now almost a year ago.

Cheerful daffodils and perfect pink rosebuds in slender vases, contributed to the charm of the setting while the approving St. Patrick's day colors were suggested in shamrock favors. Covers were placed for Mr. and Mrs. Thrasher, Mrs. Ansel McBroom, Miss Chloe Scott and Mrs. Emmett Elliott. One table of bridge was formed as a part of the after-dinner enjoyment.

Bridge Luncheon Is Pleasant Affair

A refreshing St. Patrick's day motif was carried out by Mrs. Fred N. Anderson Wednesday afternoon when she entertained members of a bridge club in her home, 931 Kilson drive. Luncheon was served at the small tables lighted with tall green tapers and bearing other appointments in the same tint.

Bridge was played, and when tallies were checked Mrs. Oscar Carothers, a guest, was found to be high scorer. Mrs. Lewis Williams was consoled.

'SUNRISE TRAIL' AT WALKER STATE

An unusual part, that of a "star-packer," or a squarer, is played by Bob Steele in his new-er Tiffany picture, "The Sunrise Trail," opening today at Walker's State.

Steele portrays a most thankless role, but executes it to perfection. It is a complete departure from his usual run of impersonations. He is what is today known as a "stool pigeon," although in those days it was given the name of "star-packer."

It is a role in which danger and evil as well as romance and love are necessarily mingled, but the combination results in good for the community and the ex-oration of the hero.

'RANGO' PROVES BIG DRAWING CARD HERE

"Rango," famous animal picture, taken in Sumatra, continues its run at the Fox Broadway theater today. The film opened here on Wednesday and plays through Saturday night.

A picture of wild animal life in the jungles of the only country in the world where the tiger and the orang-utan live in the same jungle, some remarkable scenes are shown.

The picture was made by Ernest Schoedsack, who made "Chang" and "Grass," other great animal pictures, and while "Rango" is different in every way, it has the same kind of appeal. "Rango" also has more continuity.

The antics of hundreds of monkeys in the picture will keep any audience howling with laughter, while the fight to stay alive, day by day, of the animals of the jungle will intrigue and interest throughout the picture.

There are two men in the picture, a tiger hunter and his son. They kill several tigers and black panthers, catch them in traps and stage many narrow escapes. One of the features of the film is a battle to the death between a water buffalo and a tiger, in which the big awkward buffalo wins.

Those present were Mr. and Mrs. Everett Rea, Mr. and Mrs. Marvin Wilcox, Mr. and Mrs. H. McCurdy, Mr. and Mrs. A. M. Worden, Mr. and Mrs. A. Keating, Mr. and Mrs. Warren Messing, Mr. and Mrs. Arden Long, Mrs. Ruth McKenzie and A. Reid.

THE WEEKLY PANTRY SHELF

BEST METHODS FOR HONEY USE ARE OUTLINED

American Honey Institute, the educational organization for those interested in Nature's own sweet, honey, is providing special honey recipes for every one. So many folks have already written us of their interest in honey that we are sure you too will want to surprise your family every day with some of the delicious and healthful honey dishes.

The flavor of honey depends upon the flowers from which the bees gathered the nectar. Since there are so many sources of nectar, there are of course, many flavors of honey. The kind of honey you use is the best is the honey you need doubt had as a child. You have become accustomed to that flavor through the years and unless you get the flavor you like, you unconsciously think there is something wrong with the honey.

Practically all the honey on the market today is pure honey. All honey is good honey but that does not mean all flavors are equally as pleasing. When you purchase honey insist on tasting that honey before making a purchase. Be sure you are pleased with the flavor and then purchase in 5 or 10 pound pails—that's the economical and sensible way to buy it.

Honey keeps indefinitely—it does not spoil. In the ancient days it was used as a preservative and this particular quality is still true of honey. You will find its stickiness an asset once you have learned to take advantage of it. Keep it in a warm dry room and not in refrigerator.

In general the lighter colored honeys are milder in flavor and the darker colored more spicy and pungent. The milder flavored honeys such as clover, orange, sage, are preferred for general home use—sauces, salads, fruits, sandwiches and the like. The spicy, dark honeys are splendid for gingerbread, fruit cakes, fruit and nut cookies.

Using buckwheat honey in a cheese cake would be disastrous and still buckwheat honey spice cookies are unusually finely flavored. It's just like putting mustard in a cake—who'd I like that? And still mustard on meat and in salad dressing is most desirable.

Orange county folks are fortunate for Orange county honeys are unusually finely flavored.

KNOW YOUR HONEY and always get the flavor you prefer. Then and only then will you realize what delightful and satisfying dishes you can prepare the honey way.

DRIZZLING HONEY It's such fun to drizzle honey and it's real satisfaction to get such a fascinating variety and so many irresistible flavors in the resulting dishes!

A new appeal to the appetite each day and a health giving dish, too! Learn first to drizzle honey—it's the simplest and most economical way to use it. Honey drizzled is better than honey poured for a little given just the sweetness desired and intensifies natural flavors—a lot of think honey poured on makes any dish too sweet.

Warm honey is thin and drizzles perfectly. Place the honey jar in warm water—not hot—water for about 10 minutes before using. When you are ready to flavor the food, the honey is just the right consistency to drizzle tiny threads instead of pouring a heavy stream.

Use honey because it is good, good for all of us. It's full of flavor and full of health, thus it satisfies both our taste and nutrition needs. The Institute recipes you will enjoy we know. All of them have been thoroughly tested in not only our own kitchen but in many housewives' kitchens. They are the most approved honey favorites. Buy your honey from your grocer who handles Orange county honey, and write American Honey Institute, Indianapolis, Indiana, for honey recipes. Here's one for you to try right now:

Dr. Barnard's Favorite Salad—Peel and slice crosswise, firm medium-sized oranges, allowing four or five slices for each salad. Arrange slices lettuce on individual dishes. Have slightly warmed honey in a saucer—shredded coconut in another. Dip orange slices in honey (both sides); then in coconut; arrange on salad plates. Heap halves of sweet red cherries or berries in center where orange slices meet; drizzle a bit of honey on fruit in center; serve cold. Honey coated slices dipped in Rice Krispies or other cereals make excellent breakfast service for children.

HONEY DATE BARS

Three eggs well beaten; mix with one cup honey. One teaspoon baking powder sifted into one cup flour (half white flour and half All Bran or all whole wheat flour may be used); then add pinch of salt, one pound chopped dates, one cup whole nuts. Bake in moderate oven about forty-five minutes in long, flat tin (unbuttered spread one-fourth to one-half inch thick). Pack slabs wrapped in waxed paper in covered jar or cake box and keep at least two weeks before serving. This Date Bar has kept in splendid condition six months. Before serving, cut in strips; roll in powdered sugar, or top with Honey Meringue.

VEGETABLES Vegetables, with their appetizing salts and heat-promoting vitamins, are digestive aids and important "protective foods". To bring out their best fresh flavor, add a teaspoon of mild honey for each of vegetable when adding butter and

the early morning. Our houses must be warm and comfortable all through the cold winter months. Our bodies must be fed just as carefully as our fires for unless we keep them at just the right temperature with the right kind of food they suffer. When our bodies are not well we do poor work and our children play listlessly and make little progress in the school room.

So the first and most important meal of the day is a good breakfast and in the cold winter months which are with us that meal must be rich in calories, full of abundant stores of heat and energy. The sugars and starches are splendid fuel foods and ample helpings of fruits drizzled with honey, breakfasts of hot griddle cakes served with honey, crisp hot waffles topped with a honey butter sauce—all are good protection against winter cold. No finer beginning can be made to a busy day than a heaping plate of honey muffins served piping hot with comb honey. Honey is high in energy value and its sugars serve as fuel for muscle activity.

Butterscotch Wheat Drop Cookies

1/2 cup shortening
1 cup brown sugar
1 egg
1 1/2 cups pastry flour

2 tsp. baking powder
1/2 tsp. salt
1 cup coconut
1/2 cup milk
1/2 tsp. vanilla extract
1/2 tsp. lemon extract
1 1/2 cups Carnation Wheat
1/2 cup nuts.

Cream the shortening; add sugar gradually. Add the well beaten egg and beat thoroughly. Sift together the flour, baking powder and salt and add alternately with the milk. Add remaining ingredients, and drop from the tip of a spoon on a greased pan. Bake in a hot (400°F) oven. Makes three dozen cookies.

Macaroons

3 egg whites
1 cup sugar
1 they, cornstarch
1/4 tsp. salt
1 1/2 cups Carnation Wheat
1/2 cups coconut.

Beat egg whites until stiff; add sugar, cornstarch and salt, which have been blended together. Cook 8 to 10 minutes, without stirring, in a double boiler (over boiling water). Add Wheat Flakes and coconut, and drop from the tip of a spoon on a greased pan. Bake in a slow (300°F) oven. Makes 30 macaroons.

Mr. and Mrs. B. F. Beswick motored to Dana Point Sunday and enjoyed a picnic dinner with relatives.

Mrs. L. R. Stearns spent Wednesday with friends at Lake Elsinore.

Donald Kennedy, son of Mr. and Mrs. W. S. Kennedy, is confined to his home with illness.

Complimenting members of the varsity squad of the high school basketball team, Mr. and Mrs. A. M. Lindsey and Mr. and Mrs. Harvey A. Ritner were hosts Monday night at a beautifully appointed 6:30 o'clock dinner in the Ritner home. Flowers, nut cups and other appointments carried out the school colors of purple and gold. The affair was in recognition of the squad winning the league in basketball for the past season. The evening was spent playing games.

Covers at dinner were laid for Horace Ritner, Jack Lindsey, Henry Thiery, Joe Crafts, Harry Holmes, Herbert Lawrence, Bruce Handy, Charles Wetzel, Gould Staples, Elmer Farnsworth, Harold Spangler, Vernon Carlson, Louis Collins, Horace Sears, Prof. J. W. Means, Coach Ralph Cole, and the hosts, Messrs. and Mesdames Lindsey and Ritner.

Mr. and Mrs. H. L. Wilson and son, Dick, of Banning, were recent guests of Mr. and Mrs. Walter S. Thomson.

Fill up the empty jelly glasses with marmalade. Citrus fruits are at their best and inexpensive now. Carrot marmalade is well flavored, but not quite so sharp as pure orange marmalade. Try it!

Carrot Marmalade
6 carrots, cut in thin strips 1 lemon
Sugar 3 oranges

Cut the carrots in thin strips and cook them until they are tender, using as little water as possible. Slice the oranges in thin pieces and add the juice and grated rind of the lemon.

Measure the carrot and fruit, and add two-thirds as much sugar. Simmer this mixture until it is clear. Fill jelly glasses, and when it is cold, cover with hot paraffin.

Safeway Homemakers' Bureau most cordially invites you to write for any information you desire, be it a recipe, a budget, a party plan. Simply enclose a self addressed stamped envelope with your request to Julia Lee Wright—Safeway Homemakers' Bureau, Care of Safeway Stores, P.O. Box 774, Oakland, California.

HARDING

HARDING, March 6.—Mr. and Mrs. G. W. Lady, of Chino, were guests of Mr. and Mrs. C. C. Duell Sunday.

Mrs. D. S. Atwater entertained with a miscellaneous shower for her niece, Mrs. Gordon Anderson, of Long Beach, Friday. Delicate colored sweet peas centered the table, with orchid and pink as the color scheme stressed in appointments. An old fashioned wedding cake within which the guests found concealed a coin, a trinket, a button and a ring, in keeping with traditions, was the center of interest during the serving of refreshments. Places were laid for Mr. and Mrs. H. R. Etzell and children, Hughie and Betty, Mr. and Mrs. F. M. Parkins, parents of the bride; Mrs. Laura Hoffman, Mrs. Bessie McGarvin, Mrs. J. J. Silva and Mr. and Mrs. H. M. Atwater; all of Long Beach, and Tom Harris of Western avenue. Mrs. Anderson received many beautiful gifts.

Sunday guests of Mr. and Mrs. Fred Schadick were Mr. and Mrs. Bert Stransky of Anaheim, Mr. and Mrs. Fred Maas of Anaheim, and Mrs. Schadick's mother, Mrs. Morawka of Anaheim.

After the ceremony a wedding dinner was served at the Neivergelt home on Hansen road. Dinner guests were Mr. and Mrs. Albert Belletich and son, Albert Jr., of San Bernardino; Mr. and Mrs. John Goyak, of Hawthorne; Frank Arable, of Los Angeles; Mr. and Mrs. Constantine Belletich and the hosts.

ALL-BRAN BROUGHT WELCOME RELIEF

THOUSANDS of letters attest to the efficiency of Kellogg's ALL-BRAN in overcoming constipation. For instance, Mr. James D. McEnery, Alto, Texas, relates his experience:

"For fifteen years I was constantly bothered with constipation. . . . Some eighteen months ago, I began using Kellogg's ALL-BRAN. From the first week to this good day, I have never had to take a dose of laxative medicine of any description."

Kellogg's ALL-BRAN is the largest-selling all-bran cereal in the world. Two tablespoonfuls daily are guaranteed to give relief. How much safer than using habit-forming laxatives.

ALL-BRAN also adds needed iron to build the blood. In the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

CRITICS MARVEL AT AROMA AND FLAVOR OF FAMOUS COFFEE

Patented Roasting Process is
the Reason for Distinctive
Goodness

Of all coffees being sold today, there is one that is winning countless new friends wherever it is introduced because of its distinctive, rich flavor. As a matter of fact, more of this coffee is sold west of the Mississippi than any other brand of fine coffee.

Hills Bros. Coffee owes its matchless flavor to the patented process by which it is roasted. Instead of the rare blend being roasted in bulk, only a few pounds at a time pass continuously through roasters in which the heat and speed of operation are accurately controlled. This process—Controlled Roasting—proves its superiority over any other method, because it roasts every berry evenly. None are overdone and none are underdone. Naturally a flavor is developed which is the last word in uniform goodness and one that no other coffee can equal.

Hills Bros. Coffee is sold everywhere by grocers. It comes to you perfectly fresh because it is packed in vacuum. This process extracts air, which destroys the flavor of coffee, from the can and keeps it out. Ordinary cans, even if airtight, do not keep coffee fresh. Ask for Hills Bros. Coffee by name and look for the Arab—the trade-mark—on the can.

THE TINYMITES

STORY BY MAI COCHRAN — PICTURES BY KNICK
REG. U. S. PAT. OFF.

The houses that the natives built beneath the sun would never wilt. Although the roofs were made of grass, 'twas woven very tight. A heavy rainfall made no din and yet the rain would not seep in. Said Scouty, "When they build a house, they surely build it right."

"You bet," replied the Travel Man. "They've learned just how. That's why they can. But, come, no loafing on this job. We offered help, you know. If to the task we all will stick, it surely will be done real quick. We can't make speed at doing things when everyone works slow."

And so the Tinymites sailed right in. It made the group of natives grin. Said one of them, "You boys are fine to work with all your might. This home will not be done today. We're sure of that, but anyway there is another one nearby and you can stay all night."

Of course this pleased the Tinymites. Said one, "We've spent some funny nights, out in the open, in our truck and in all sorts of beds. But, in a hut, will be a treat and I'll bet we'll get shummy sweet. A bed of grass sounds very good, to rest our weary heads."

But now 'twas getting rather dark. Then Coppy loudly whispered, "Hark! I think I hear some singing and it's pretty as can be." And he was right. Some natives, near, were gayly singing songs of cheer. "Let's find our hut," said Scouty, "while it's light enough to see."

"They found the hut. 'Twas good and strong and in it they slept all night long. At daybreak they were up again. "Where's breakfast?" Clowny cried. A native said, "We'll feed you lad." And what a breakfast they all had. The Tinymites liked all the native dishes that they tried. (Copyright, 1931, NEA Service, Inc.)

Missing Letter Links

RULES

1. In playing golf on the Missing Letter Links the object is to change one word to another in a given number of strokes which is par. For example, to go from TEE to PIN in three strokes sounds hard but isn't. TEE-TIE-PIE-PIN. It's probably more difficult on a real course.
2. Change but one letter at a time and be sure the word you have used is one in good usage.
3. The order of the letters can not be changed.

HEAD to LINE—You'll rate a

HEADLINE If you can shoot better than a par four on today's letter links hole. We couldn't!

FRIDAY, MARCH 6
Neighbors

(Read Luke 10:25-27. Text, Luke 10:29.)

And who is my neighbor?
The most cruel punishment ever devised was
solitary confinement. Its victims went insane,
for they had no neighbors. Robinson Crusoe
is not a boy's book; it is an attempt to solve
the problem of solitude without sacrificing
reason. The philosophic ingenuity of DeFoe
failed, and he had to bring in the man Friday.
One of the evils of great cities is that they give
us people but no neighbors. In the quiet of
the country we have neighbors who can share
our joys and sorrows, and who are always
ready with their help in time of trouble. There
speech is more rare, but also more intimate
and sacred. To have a neighbor is to have one
of life's richest treasures; to be a neighbor is
to find the way to our sweetest joys.

"And sweet it is
To sit, echoing spirit with singing spirit,
As friend with friend by the wayside of the
years.

Above the dust of time and circumstance,
And hear, in the lone hour of delight,
The sacred things that man hath said to man
For comfort of his sad and wondering heart."

PRAYER: Our Father, who art the Father
of all, give us the grace of friendship, and lead
us in the way of kindness toward all thy chil-
dren, especially to those in need. In Jesus'
name. Amen.

OIL AGAIN

The accompanying cartoon shows the Pres-
ident crawling over the fence, relieved from
the antics of one Congress, but being await-
ed by the ferocious bull-dog, the Seventy-
second Congress. Figuratively speaking, while
he is on the fence, however, he evidently has
composed himself to make an impression. The
latest news on the situation is that the admin-
istration "has thrown its weight behind ef-
forts to harmonize oil imports with domestic
production."

The occasion was the conference of the
governors of five oil states. They sought
President Hoover's help in meeting the oil
crisis.

So long as Congress was in session, while
the representatives of the independent and do-
mestic oil producers were working so hard at
Washington, and seeing their measures balked
and frustrated until so much time had finally
elapsed that the House Ways and Means Com-
mittee openly declared that it was too late to
do anything about it, President Hoover stayed
his hand. Now the White House has made
a gesture to aid the suffering oil states. Why
the delay? It could not have been that the
President did not know the situation. It was
not that the President did not know of the
situation in the oil sections of the country.
Such a thing is unthinkable.

A word from the White House and there
would have been enough harmony on this im-
portant and vital matter at least to have had
it declared out of committee and it probably
would have passed with the relief. And the
relief it would have afforded the states in
which oil has been produced but in which
oil production has been curtailed because of
the competition of foreign importation! It
would have been the orderly procedure.

SHERWOOD EDDY JOINS THE
SOCIALIST PARTY

At a farewell dinner given to him by his
associates for many years in the Y. M. C. A.
movement on the occasion of his retirement,
Sherwood Eddy made the announcement that
he would devote the rest of his life to the ad-
vancement of socialism. Some of his friends
will be saddened by this announcement. His
enemies, with unholty glee, will chorus, "I
told you so." Those who have known him
best will not be surprised.

During his whole life, Sherwood Eddy has
felt deeply the needs and the sorrows of man-
kind. First he was devoted to the Christian-
ization of his individual friends and acquaint-
ances. Then his generous spirit went out to
save the souls of the people of other lands.
Finally the physical, as well as the spiritual
needs of men began to bear in upon him, as he
saw how difficult it was for a man to live the
Christian life in economic society as at present
constituted. He now believes that social-
ism will help to cure the evils of our economic
society. He now stands with Canon Kingsley
of the last century, with Bishop Gore, with
Norman Thomas, with Vida Scudder—all of
them devout Christians—with many others in
the ranks of those who believe that our com-
petitive economic society is destructive of the
Christian life.

We who may belong to the Republican party
or the Democratic party might disagree with
the method. We cannot doubt Mr. Eddy's
integrity, nor doubt his unflinching interest and
solidarity for the spiritual, the moral, and the
physical well-being of his fellowmen here and
in all the world. Those who have felt the
radiance of his life will follow him into new
paths with continuing interest. "If we do
not Christianize the social order," he said,
"there are those who will communize it."

TRADE MAKES STRANGE BANQUET
FRIENDS

An item from a Cleveland paper notes the
fact that Peter Bogdanov, chairman of the
Board of Directors of the Amtorg Trading
Corporation, the agency through which Soviet
Russia purchases its supplies in the United
States, was to speak at a meeting of the City
Club of that city. There is nothing strange
about that, because the average City Club is
composed of a group of substantial and lib-
erally-minded gentlemen who have an open
mind for all new ideas and movements.

But what follows sound more strange, and
yet when we come to understand the whole
matter, it is not quite so strange. That same
evening Mr. Bogdanov was to be "the honor

guest at a dinner in the Union Club," which
happens to be the social citadel of wealthy
aristocrats, bankers, and industrialists. Cleve-
land, we happen to know, has very little use
with the garden variety of communists who
orate on the public square. Sometimes the
police are a bit rude with them. But when
the head communist in this country comes, he
sits with the city's chosen ones around the
table of the Union Club.

Well, it is this way. The Amtorg Trading
Company, of which Mr. Bogdanov is the head,
spends over \$150,000,000 a year in the United
States for machinery and surplus. That is a
snug business sum when business is nearly 25
per cent off in the country; and of course,
every manufacturer wants a share of it. That
is all right. Business does not scrutinize very
closely the character and the economic ideals
of a customer. But when we hear many lead-
ers in public life calling for the deportation of
communists, there is just a bit of irony when
many other leaders keep open house for the
chief, simply because he carries favors in his
hands.

Most of us as human beings are not very
consistent, and it is just as well that we are
not; for if we were, we should not see the humor
of such a situation. As a result of this gracious
hospitality to the chief of the communists in
the country, Cleveland industries hope to get
a good order of business. What quarrel should
capitalism have with communism when money
is to be exchanged?

Women, says a beauty expert, will become bald
if they continue to bob their hair. Is the perma-
nent wave temporary, after all?

JOBS MUST BE PROVIDED

Yesterday the people of Los Angeles voted
a five million dollar bond issue which will
relieve the unemployment situation there. The
need for jobs is not peculiar to Los Angeles.
Here in this community, for the past few
months strenuous efforts have been put forth
to relieve the situation by volunteer jobs. The
city opened an employment office. The people
were asked to provide jobs. Some did. The
response of the people has not been enough to
meet the demand for work. Some plan more
adequate to meet the situation must be devised.

Plans are being discussed for raising funds
for public improvements which would provide
jobs. The number of applicants at the city
employment office leaves the community with-
out doubt of the need. Whether the failure of
citizens to volunteer jobs is due to an actual
lack of jobs or lack of knowledge of the need
is a question which doesn't enter into the
problem for the community at this time. There
was not enough response to meet the need,
though every effort was made to acquaint the
householder with the situation.

Jobs must be provided. Several plans are
being discussed which would meet the situa-
tion. The story of that is printed elsewhere.
Whatever plan is settled upon should have the
whole-hearted cooperation of the citizens. It
will have the cooperation and support of The
Register. With nine hundred families, as it is
reported, without income, in the community, it
ill becomes any competent person to haggle
long over methods. Local pride, civic con-
sciousness, the Christian spirit at work in the
individual makes it impossible for him to do
less than his full share in meeting this emer-
gency by whatever method suggests itself as
workable.

California Asks For Help
New York Times

Water means almost as much to California as
to the state haunted by drought. Economics and
even politics have their roots deep down in the
waterable. The cities of Southern California have
sometimes stood in fear of a water famine. Prob-
lems of water supply long troubled San Francisco.
The farmers of the great central valley of Cali-
fornia have done wonders with irrigation since
the beginning of the century; they think they
could do more still if floods were better controlled
and amply stored. What the state lacks in natural
resources she has partly made up in human re-
sources: energy, engineering talent and an influ-
ential delegation at Washington—not to speak of
an adopted son for President. Her representatives
in Congress are a specially determined band. Hav-
ing secured the benefits of Boulder Dam for South-
ern California, they are now bent on having the
federal government do something equally hand-
some for the northern half of the state.

Our Watch-Tower correspondent reports today
that when Congress meets next December there
will be presented to it a request for aid in the
shape of a loan of \$150,000,000, or as much thereof
as the federal treasury can spare, to help finance
an enlarged plan for the development and con-
servation of the state's water resources. By co-
incidence, that happens to be almost exactly the
sum originally set aside for the Boulder Dam
project. But this is a somewhat different kind
of undertaking. In the Sacramento and San Joaquin
valleys the state has about 14,000,000 acres of
arable land, of which, in 1925, about 4,000,000 were
under irrigation. Experts say that with proper
storage facilities about 6,000,000 more could be
brought under intensive cultivation. Over the pros-
pect of adding the wealth of these fertile lands
to his state, Hoover the engineer and California
has ever been enthusiastic. "If we were to scan
the whole nation for the greatest opportunity of
national development," he told a Sacramento
audience back in the days when he was Secretary
of Commerce, "we would find that it lies right
here in the great central valley of California."

A commission subsequently appointed by Pres-
ident Hoover and ex-Governor Young tentatively set
the entire cost of the enterprise at \$374,000,000.
The very establishment of that commission was
evidence of the federal government's interest. Nav-
igation and flood-control are words to conjure
with when it comes to rousing the jinn that
guard the federal treasury. Mr. Hoover is himself
on record as favoring federal expenditure on both
these accounts. The question is how far Congress
will be willing to go in plowing back into the soil
of California her ancient gold. Another question it
must answer is this: To what extent, and how
speedily, is it desirable to add to the area of land
now under cultivation? President Hoover's reply
is that it will take twenty-five years to bring this
new tract into bearing, and that then it will be
needed.

More Truth Than Poetry

ADVENTURE

I am ardently fond of a news reel;
I am thrilled by the leaden-hued sky
And the forests that moan in a resonant tone
When the wild mountain blizzard sweeps by.
I love to see glittering glaciers,
Which remain so remote and so calm—
If I dwell in a spot where the weather is hot
And a zephyr is stirring the palm.

I love to see wild dashing billows
Sweep over the flickering screen.
The voice of the deep almost lulls me to sleep
As content on the cushions I lean.
I love the processions of surges
And their vast and tempestuous roar,
But I like them the best, I am free to attest,
In a theatre built far inshore.

I like to watch the lions and panthers
As they romp in the tropical belt,
And the rhinos that lope up the mountainous slope,
And the leopards that sneak through the velvet.
I like to watch elephants rocking
As they work up their man-slaying ire,
But I like them the most when my slippers I toast
By the side of a nice open fire.

I am filled with the thirst for adventure
When wild places and creatures I see,
There is nothing I find that so rouses the mind
Of an untraveled person like me.
But never for personal contact
With the jungle or sea do I pine.
Through the news reels I roam, yet I stick close to home
In the shade of my fig tree and vine.

Worse Than the Einstein Theory

By WILLIAM TRUFANT FOSTER and
WADDILL CATCHINGS

The whole world, apparently, is perplexed by the Einstein
Theory. The whole world, according to a recent statement by
Einstein, is equally perplexed by business depressions, with their
periodic increases of idle facilities and idle men.

Concerning the causes, there is much confusion of thought.
Concerning the remedies, there is, therefore, a confusing conflict
of advice. It is useless to try to agree upon remedies until there
is agreement as to causes.

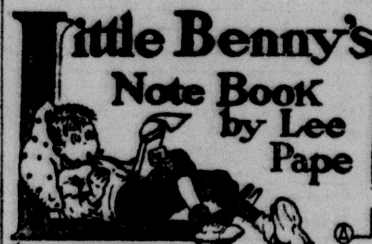

Other perplexing problems the solution of which depends on
a knowledge of facts, have yielded to intensive study. Every
schoolboy knows about the triumphs of Edison. But with regard
to the tragic problem of periodic business depressions, there is a
chaos of thought and a Babel of noise. Yet all the major facts
are open to observation. There is not a mysterious, hidden cause,
as in the case of cancer, which awaits a chance discovery.

Yet, even concerning the direction in which we should seek
a solution, there is no agreement. Some say we should look to
the stars. Others see no hope except in religion. Still others in-
sist that the road to security is communism. Some point to more
spending as the way out and others to more saving. All this is
discouraging, for the very first step toward learning the crucial
facts is the choice of the right line of attack.

Innumerable agencies are trying to help the unemployed—
trying to relieve some of the suffering caused by business depres-
sions.

But no agency has done much toward PREVENTING these
depressions, mainly for the reason that as yet no agency has gone
far enough in the study of fundamental causes.

And he kep on not singing, and

I feel half covered with soap, but
that's not abnormal at this time of

inquisition for Peet sake? he sed.

But Willum you're not singing
and you know you invariably sing
in your bath, ma sed, and pop sed,
Well then yee gods Ill sing, I did-

toon but sounding natural, and me

Thoughts On Modern
Life

By GLENN FRANK

AN OLD VOICE ON A NEW ISSUE

Now and then I find a great joy
in coming upon a voice from the
past speaking with a tone more
modern than the moderns.

Time and again I have insisted
in these articles that the develop-
ments of this technical and com-
plicated age demand some drastic
readjustments in the forms and
functions of government if we are
not to see an increasing chasm
between the day to day life pro-
cesses of the American social or-
der and the existing political or-
der.

Tonight, in Hargrave's Law
Tracts, published in Dublin in
1787, I find Sir Matthew Hale
saying:

"He that thinks a state can be
exactly steered by the same laws
in every kind as it was two or
three hundred years ago, may as
well imagine that the clothes that
fitted him when a child should
serve him when he was grown a
man."

"The matter changeth, the cus-
tom, the contracts, the commerce,
the dispositions, the education, the
temper of men and societies
change in a long tract of time, and
so must their laws in some meas-
ure be changed, or they will not

be useful for their state and con-
dition.
"And besides all this, time is the
wisest thing under heaven."
"These very laws, which at first
seemed the wisest constitution un-
der heaven, have some flaws and
defects discovered in them by
time."

"As manufacturers, mercantile
arts, architecture and building, and
philosophy itself, secure new ad-
vantages and discoveries by time
and experiences, so much more do
laws which concern the manners
and customs of men."

Sir Matthew, never was your
counsel more needed than now!

We are still worshipping the
shadows of phrases framed by our
fathers.

We have not yet learned that
our fathers were themselves men
who broke with obsolete forms
and functions of government and
produced new ones that better met
the needs of their time.

We are experts in idolatry
rather than insight.

We need your flexible spirit, Sir
Matthew!

We need to re-examine our old
political order in the light of the
new economic order that has
arisen about us.

OUR CHILDREN

By ANGELO PATRI
A BIT OF FRANKNESS

"Oh mother, mother, what shall I
do?"

"What is the matter, child?"
"My head aches and my throat
hurts and I'm so sick."

"Well, well, that's too bad.
Mother will put you in bed and
spray your throat and make your
head comfortable. You'll be better
in a little while. Be quiet as you
can and mother will help you."

"But mother, grandmother told
me that I was wicked 'cause I did
not mind her and now God won't
listen to me when I ask Him to
help me."

"Oh yes, He will. Come along
now and never mind what anybody
said. Just believe mother when she
tells you that you are going to be
all right in a little while."

"But grandma said—"

"Child, I don't care what she said.
She didn't know what she was
talking about. God would not treat
a little girl like that. He loves lit-
tle children. He will help you.
Just keep right on asking Him and
keep still inside yourself and wait.
There now. You are all right. Just
keep quiet. Close your eyes and
rest."

Now grandmother heard what
mother said and was angry. "Don't
know what I'm talking about, don't
I? Well, who does, I'd like to
know."

It is too bad when one has to say
anything like that to a child, but
in the cause of truth, in all frank-
ness, what else is one to do? To
tell a sick child that God will pun-
ish her is not my idea of truth, nor
of justice, nor of common sense.
If anybody says anything so false-
hooded as that, let them be the ob-
ject of everyday living, one must speak
out and set the child right.

It won't do to ask children to ac-
cept everybody's word as the gos-
pel. Too soon they discover our
frailties. Too soon they begin to
question and to doubt. Better meet
their questions with frankness, bet-
ter acknowledge that grown-ups
make mistakes and trust the child
to be tolerant and merciful to us.
As all children are.

Teachers, parents, relatives, all
grown people, are people. All peo-
ple make mistakes. If we want
children to respect us, if we want
them to confide in us and trust us,
we must be a bit frank with them.
When somebody makes a mistake
of fact, acknowledge it and correct
it. When somebody's judgment
takes a holiday, acknowledge that,
too, and do what you can to make
amends.

This attitude will not hurt the
relationship between children and
their parents and teachers and ad-
visors. It will help it. It will
bring children closer to us. It will
bring them to confide in us more
and distrust us less. The eyes of
childhood and adolescence are clear.
The judgment is sharp. The in-
telligence is keen. How can we ex-
pect to deceive the children and
still hold their regard?

A certain respect and regard will
always be shown age by youth, but
it is as nothing compared to the
overflowing affection and loyalty
that is accorded those whom youth
has found trustworthy. A bit of
frankness between children and
parents is a healthful thing.

E. B. BROWNING'S BIRTH

On March 6, 1806, Elizabeth Bar-
rett Browning, English poet, was
born near Durham.

She early displayed great liter-
ary precocity, composing when
about 11 an epic poem on the Bat-
tle of Marathon. When she was
20 her family moved to London
where Miss Barrett established her
reputation by the "Seraphim" and
other poems.

In 1845 she met Robert Brown-
ing, whose writings she had pre-
viously praised. A year later they
were married against her father's
wishes. Proceeding to Italy they
made Florence their home and
there in 1849 a son was born,
Robert, who became known as an
artist and poet.

The married life of these bril-
liant poets was singularly happy,
and their mutual influence is clear-
ly seen in their verse. Mrs.
Browning's "Sonnets From the
Portuguese," which were in reality
original compositions, written after

her engagement to Browning, "are
unrivaled, of their kind, in the
English language, as an exquisite
expression of pure yet passionate
love."

A tramp, sitting by the roadside, was asked the way by a pass-

"If you can show me a lazier trick than that," said the wayfarer,
"I'll give you half a dollar."
"All right," said the tramp, wearily, "put it in my pocket!"—
